4-15-13

Dear firefighters,

I may not have the proper station, but this thank you applies all the same... Thank you so much for the dedication + service you provide our community. Today I locked myself out of our home, leaving my 3 yr old daughter inside. Obviously, as a mother, I was frightened, but you men arrived with such a sense of urgency, I would have thought it was your own children locked inside! Although crying + shaken up, you all were very understanding + compassionate to help. I can not express my gratitude for helping me + my family, + want you all to know how much your hard work is appreciated. Thank you. Thank you. Thank you.
