In the event a classification is reallocated to a higher maximum pay range, the employee in the classification shall be paid at the minimum rate of the new pay range, or at the next higher step in the new range above the employee's present rate of pay, whichever is greater. Such increase should result in at least a 2.75% increase for employees in pay ranges prefixed by "C" or at least a 3.25% increase for employees in pay ranges prefixed by "A". The effective date of the reallocation shall be used to establish a new eligibility date, which shall be one (1) year from the date of the reallocation.

Section 4. REALLOCATION TO A LOWER PAY RANGE In the event a position is reallocated to a classification which has a lower maximum pay range, the employee concerned shall normally be paid at the same rate of pay in the lower pay range. If the employee's rate of pay exceeds the maximum rate of the lower pay range, the employee's rate of pay shall be frozen (red-circled) until such time that the maximum rate, through general increases, makes sufficient upward movement so that it exceeds the employee's rate of pay. When the maximum rate meets or exceeds the employee's frozen (red-circled) rate through general increases, the employee's frozen rate of pay shall then increase to the maximum rate, and be eligible for all future increases, providing that such increases do not cause the pay rate to exceed the maximum rate.

In the event a classification is reallocated to a lower maximum pay range, the same provisions shall apply as have been established for the reallocation of a position to a lower pay range.

Section 5. DEMOTION In the event of a demotion (other than through reallocation as defined in Section 3 above), whether voluntarily or involuntarily, the rate of the demoted employee shall be decreased at least one step or 2.75% if in a pay range prefixed by "C" or 3.25% if in a pay range prefixed by "A" below the employee's rate of pay prior to demotion. Under no circumstances shall a demoted employee's rate of pay exceed the maximum rate of pay in the lower pay range. Approval to reduce the employee's rate of pay more than one step, either 2.75% or 3.25%, may be allowed if a Department Head submits a written request outlining the reasons for such action for approval by the Personnel Director. The effective date of the demotion shall be used to establish a new eligibility date, which shall be one (1) year from the date of the demotion.

Section 6. APPEAL OF ALLOCATION An employee may appeal the allocation of the employee's position to the Personnel Board within fifteen (15) working days following the receipt of the result of a position audit if the employee's position is downgraded to a class with a lower maximum pay range.

An employee whose position allocation results in the position remaining the same shall have the right to request a formal reconsideration by the Personnel Director or the Director's designated representative knowledgeable about such matters. There shall be no right of appeal from the reconsideration to the Personnel Board.

ARTICLE 11

TEMPORARY ASSIGNMENT/PROMOTION TO A HIGHER CLASSIFICATION

Section 1. Any regular, nonexempt employee, in a pay range prefixed by "C", who is temporarily assigned to work in a budgeted position (with a pay range prefixed by "C") which is temporarily vacant and has a higher maximum salary than the maximum salary of such employee's regularly assigned class and who actually works at least eight (8) consecutive hours in the higher classification shall be compensated at the minimum rate established for the higher class, or at the next higher step in the higher class which results in at least 2.75% increase above the employee's current rate of pay, whichever is greater. All out of class work shall be assigned in writing, either prior to the initiation of the work, or the Department shall provide the employee a written record of the assignment within seventy-two (72) hours of the initiation of the work on a form prescribed by the City; and

The authorization must empower the employee to perform the full range of duties of the out of class work, even though the employee may not perform the full range of duties; out of class work shall also include when an employee is assigned to operate specific equipment outlined in the higher classification.

Section 2. Any regular, exempt employee, in a pay range prefixed by "A", may be temporarily promoted to fill a budgeted position (with a pay range prefixed by "A") which is temporarily vacant and has a higher maximum salary than the maximum salary of such employee's regularly assigned class. Such temporary promotion must first be approved in writing by the Personnel Director only after the Department Head demonstrates that the employee is qualified for the vacant position. Once granted, the employee must actually perform the duties of the vacant position and shall be paid at the next higher step above the employee's current rate of pay which results in at least a 3.25% increase, or at the minimum rate of the established range of the vacant position, whichever is greater. Any increase in pay greater than two steps must be approved in writing by the Personnel Director. No temporary promotion shall be granted for less than forty (40) hours or continue longer than one year from the date of the original assignment and approval by the Personnel Director, unless specifically authorized by the Personnel Director for a longer period of time.

Section 3. Any regular, nonexempt employee, in a pay range prefixed by "C", may be temporarily promoted to fill a budgeted, exempt position (pay range prefixed by "A") which is temporarily vacant and has a higher maximum salary than provided by such employee's current pay range. Such temporary promotion must first be approved in writing by the Personnel Director only after the Department Head demonstrates that the employee is qualified for the vacant position. Once granted, the employee must actually perform the duties of the vacant position and will be treated as an exempt employee. The employee shall be paid at the rate of at least the next higher step above the employee's current rate of pay, or at the minimum rate of the established range of the vacant position, whichever is greater. However, any increase in pay greater than one step must be approved in writing by the Personnel

Director. Such temporary promotion shall be for at least forty (40) hours, and may not extend longer than one year from the date of approval by the Personnel Director, unless specifically authorized by the Personnel Director for a longer period of time.

Section 4. Regular employees, including employees who are temporarily promoted or who are in an acting capacity in any of the represented classifications for a period of six months or longer, shall annually be eligible for merit increases of either 2.75% or 3.25% depending on whether the employee is temporarily promoted or acting in a pay range prefixed by “C” or “A”; provided, however, that upon the employee's return to the employee's former classification, any merit increase earned while temporarily promoted or in an acting capacity shall be applied to the employee's rate of pay which existed prior to the employee's temporary promotion or permanent placement in an acting capacity.

Section 5. In the event an employee is temporarily assigned to a higher classification or is temporarily promoted to a higher classification, and requests and receives approval for paid leave, such paid leave shall be compensated at the employee's rate of pay prior to said assignment. This section shall apply to temporary assignments or temporary promotions of less than thirty (30) days.

Section 6. A nonexempt employee, who works a full week in an exempt classification, is not eligible for overtime compensation for extra hours worked.

ARTICLE 12

HOURS OF WORK

Section 1. Eight (8) or ten (10) consecutive hours, exclusive of lunch, shall constitute a day's work and forty (40) working hours shall constitute a week's work. A week is hereby defined as the period of Thursday through the following Wednesday.

Section 2. When possible, an employee will receive two (2) or three (3) consecutive days off at the end of their work week depending upon either eight (8) or ten (10) hour shifts.

Section 3. Seniority will be the basis for the determination of shifts and days off within a department. All shift and days off that are in positions that operate on a twenty-four (24) hour basis, or any second or third shift within an employee's department shall be assigned based on an annual bid submitted by such employees in that department on the basis of seniority. The bid will take place on the first Wednesday following the first Tuesday of December of each year. The positions shall take effect beginning with the start of the first full pay period of January of the following year. The department must post the shift schedule at least 30 days prior to the bid date. When it can be demonstrated that specialized skills or requirements are needed the City may assign an employee's shift and days off as needed.

Employees can only bid within their currently assigned, Department, Division, and job classification.

Thirty days prior to the date of the bid, the Department Head shall publish the current Seniority list, and shall identify all positions within an employee's division, which shall include each shift, job classification, and days off for each position to be bid. The Department shall include in this information the date of the bid, and the time that the employee shall be available to make their bid, as discussed below.

The bidding shall begin at 9:00 a.m. on the day that the bidding shall take place. At 9:00 a.m. on that day, the Department shall contact the first person on the Seniority list with the available positions (including shifts and days off) and that person shall have the opportunity to select their shift and days off.

If the person making the bid is present at the location of the bid, the person shall make the bid at that time, with no more than 15 minutes to make their selection. If the person will not be present at the location of the bid, the person shall have the duty to provide the Department with the phone number at which the person can be reached at the time they are to place their bid, and the Department shall make the contact with the employee by telephone.

In the event that the person does not respond to the telephone call within the allotted time, the Department shall move to the next person on the seniority list. Thereafter, any person that has been skipped due to lack of timely response may make contact with the Department, and the person shall be permitted to make their bid after the person that is then making their bid has completed their bid.

Management shall have the right to assign shift and days off to any new employee who is in training and to assure adequate experience throughout the 3 shifts. In the interest of staff training and development, the department retains the right to assign or reassign any employee with less than two years experience in their class.

In the event new positions are allocated, positions are vacated or there is a need for the readjustment of staffing in the middle of the bid year, the Department may elect to open the position(s) for a mid-year mini bid to fill this position(s) and subsequent positions that become vacant during the mini bid.

The division supervisor will post the notice of the mini bid, the vacant position(s), date and time of the mini bid and the seniority list a minimum of 14 days prior to the mini bid date. Any employee who wishes to be included in the mini bid shall notify the unit manager four (4) days before the mini bid occurs.

The bidding shall begin at 9:00 a.m. on the day of the mini bid and will otherwise comply with the yearly bidding procedure.

Section 4. The Department Head or his designated representative reserves the right to utilize flex time in scheduling employees provided that at least forty-eight (48) hours notice is given the affected employee(s) and further provided that such schedule or shift change will not last more than forty (40) working hours.

Section 5. Employees in classifications with pay ranges prefixed by "A" are deemed exempt from the overtime provisions of the Fair Labor Standards Act (FLSA) and presumed to be paid for a complete job. However, the City recognizes that many of these employees are required to work irregular hours and may in some departments work in excess of forty (40) hours in a work week or eighty (80) hours in a pay period on a consistent basis. Therefore, the City supports the concept of a flexible working schedule for employees in these classes where and when it can be implemented by Department Heads in a manner which improves or insures the delivery of adequate and necessary services to the community. Department Heads are encouraged to utilize discretion and good judgment when allowing employees in these classes a flexible time to work in lieu of paid vacation or personal leave time. Employee requests to make flexible work arrangements shall not be unreasonably denied.

Section 6. **REST PERIODS** There shall be allowed one fifteen (15) minute rest period during each one-half (½) shift of the work day. The rest period shall be scheduled at the approximate middle of each one-half (½) shift whenever possible. The rest period may also be scheduled at other times in each one-half (½) shift if service would be adversely affected by taking the rest period in the approximate middle of the one-half (½) shift. Employees working nonconsecutive one-half (½) shifts that are worked either on the same day or on different days shall be allowed the same number of rest periods as those employees who work a regular work day. Employees who for any reason work beyond their regular quitting time into the next shift shall be granted the regular rest periods that occur during the shift.

Section 7. **SNOW EMERGENCY** The City will be open on all regularly scheduled work days. If an employee is unable to arrive at the work site because of an official snow emergency, the lost work time must be accounted for through vacation, personal holiday or unpaid leave.

Section 8. City employee social security numbers shall be kept confidential and not be printed on forms (such as timesheets) that are seen, or accessible to, anyone other than the Department Head, supervisor, departmental personnel clerk, and the employee.

ARTICLE 13

OVERTIME

Section 1. Work performed by non-exempt employees in excess of forty (40) hours per work week (Thursday through the following Wednesday) shall be compensated at the rate of one and one-half (1 ½) times the hourly rate of the employee. Overtime shall be paid only for those hours actually worked with the exception that for employees who are not scheduled to work on a holiday, the legal holiday time not worked will be added to the employee's regular schedule to determine hours worked for overtime purposes. In calculating overtime pay, the employee shall be paid in accordance with the Fair Labor Standards Act with the exception that vacation and personal holiday hours shall count toward hours worked for the computation of overtime. Overtime hours worked by employees whose regular duties include snow removal and who work in conjunction with snow removal shall be compensated at the rate of one and one-half (1 ½) times the regular hourly rate of the employee, regardless of whether the employee has taken any paid leave during the same pay week in which the snow removal overtime was worked. Work done in conjunction with snow removal by employees in positions which do not normally require snow removal as a regular duty shall be on a voluntary basis only and such work shall be paid a flat rate amount as set forth annually in an Executive Order of the Mayor. The flat rate amount for volunteers engaged in snow removal work shall be no less than such employee's regular hourly rate of pay for the work of the employee's normal job duties.

When a non-exempt employee is required to attend meetings or training sessions during the employee's off-duty time, and such time does not merge with the employee's scheduled hours of duty, such employee shall be compensated at the rate of one and one-half (1 ½) times the employee's hourly rate for the actual number of hours attended.

Section 2. A reasonable effort shall be made to distribute overtime as equitably as possible among eligible employees.

Section 3. **CALL BACK.** Employees entitled to overtime pay who are called back and physically report to work for emergency duty, as determined by the Department Head or his designee, shall be paid at the overtime rate for their position classification, with a minimum of two (2) hours pay.

Section 4. Overtime rate of time and one half (1-½) will be paid for actual time involved on work related telephone calls or work related home contacts. The work related telephone calls or work related home contacts must be from a supervisor and authorized by a Division Manager. No overtime will be allowed for calls or home contacts initiated by anyone other than those mentioned in this Section.

Section5. **ON-CALL.** Employees entitled to overtime pay who are officially assigned to be on-call during their normal work week shall receive one (1) hour of pay at their regular hourly rate of pay for each eight (8) hour period of on-call or fraction thereof.

ARTICLE 14

LEAVE PROVISIONS

(To supplement pertinent sections of the Lincoln Municipal Code.)

Accrued leave time shall be available for use at the end of the pay period at 2359:59 Wednesday night.

Section 1. A. **SICK LEAVE** Sick leave shall be earned by each employee in a classified position at the factored hourly equivalent of eight (8) hours for each full month of service. Earnings shall be computed only for those hours when an eligible employee is in a pay status, excluding overtime. Sick leave shall be earned but not granted during the first six (6) months of employment after original appointment.

B. **WHEN TAKEN** Sick leave will be paid only when an employee is unable to perform work duties due to actual personal illness, for periods of time during which no injury leave or workers compensation benefits are payable, bodily injury, pregnancy, disease, exposure to contagious disease under circumstances in which the health of other employees or the public would be endangered by attendance on duty, or to keep a medical or dental appointment, blood donations and for no other reason. Sick leave with pay is intended to be paid on account of sickness rather than a continuation of salary.

Sick leave must be earned before it can be granted, and advancing sick leave is prohibited. Employees may utilize no more than their accrued balance of sick leave. When an employee finds it necessary to be absent for any of the reasons specified herein, the employee shall cause the facts to be reported to the Department Head in accordance with departmental rules and regulations.

An employee must keep the Department Head informed of the employee's condition. This shall be on a daily basis unless waived by the Department Head or a designated representative. An employee may be required by the Personnel Director to submit a medical certificate for any absence. Failure to fulfill these requirements may result in denial of sick leave. No refund of vacation time shall be allowed due to illness incurred while on vacation leave. Sick leave shall not accrue during any period of leave of absence without pay.

C. **FAMILY ILLNESS** An employee shall be granted time off for a maximum of eighty (80) hours per calendar year commencing with the first pay period beginning in January for illness in the employee's immediate family. Immediate Family is defined in the Definitions section of the contract. Such time off will be deducted from the employee's accumulated sick leave. Upon written request, the Personnel Director may waive the eighty (80) hour limit after reviewing the individual circumstances in support of the request. For purpose of this section, death of an employee’s spouse shall not terminate the employee’s in-law relationship with the spouse’s family unless the employee has remarried.

D. **ACCUMULATED SICK LEAVE** The accrual of unused sick leave hours is unlimited.

E. **UNUSED SICK LEAVE** Upon retirement from the City service or upon a reduction in force, an employee shall be paid one-half (½) of the employee's accumulated unused sick leave, with the rate of payment based upon the employee's regular hourly rate of pay at the time the employee retires or is subject to a reduction in force. Upon the death of an employee, the employee's beneficiary shall be paid one-half (½) of the employee's accumulated unused sick leave, with the rate of payment based upon the employee's regular hourly rate of pay at the date of the employee's death.

Section 2. PREGNANCY LEAVE Pregnancy leave shall be handled in the same manner as any other personal illness. An employee shall expend accrued sick leave while unable to perform her duties as verified by a physician's statement. The City shall conform to all requirements of the Family and Medical Leave Act (FMLA). Whether or not the employee qualifies for FMLA, she shall obtain a physician's certification of her fitness to return to work.

If an employee wishes to use vacation leave prior to or immediately following pregnancy leave, the rules governing vacation leave with pay shall apply (Section 2.76.395).

Leave of absence, as set forth in Section 2.76.400, may be approved in conjunction with the above use of sick leave.

Section 3. BEREAVEMENT LEAVE In the case of the death of the employee's spouse, parent, step parent, sibling, child, step-child, mother-in-law, father-in-law, grandparent, great grandparent, grandchild, great grandchild, or in the case of the death of any other relative residing in the immediate household of a regular employee, the employee shall be allowed four (4) days (thirty-two hours) bereavement leave with regular pay without deduction from the employee's pay or accumulated sick leave. In addition, the employee may be allowed to use up to two (2) days (sixteen hours) of the employee's accumulated sick leave in the case of the death of any above designated persons. Bereavement Leave may be taken non-consecutively with approval from the Department Head or Personnel Director when circumstances warrant.

In the case of the death of the employee's or employee’s spouse’s daughter-in-law, son-in-law, sister-in-law, brother-in-law, aunt, uncle, nephew, niece, employee's spouse's grandparents, or foster child residing in the immediate household of the employee, the regular employee shall be allowed two (2) days (sixteen (16) hours) bereavement leave with regular pay without deduction from the employee's pay or accumulated sick leave. Further, the employee may also be allowed to use up to three (3) working days (twenty-four (24) hours) of the employee's accumulated sick leave in the case of death of any of the above-designated persons.

For purpose of this section, death of an employee’s spouse shall not terminate the employee’s in-law relationship with the spouse’s family unless the employee has remarried.

A regular employee may be allowed up to two (2) hours time off with pay to attend the funeral of a currently employed co-worker or former co-worker, provided however, that such permission is granted by the employee's Department Head or their designated representative.

Section 4. VACATION LEAVE An employee shall earn vacation leave with pay according to the following schedule:

A. After original appointment — at the factored hourly equivalent of eighty-eight (88) hours per year.

B. After five (5) years of service — at the factored hourly equivalent of one hundred twenty (120) hours per year.

C. After ten (10) years — at the factored hourly equivalent of one hundred thirty-six (136) hours per year.

D. After fifteen (15) years of service — at the factored hourly equivalent of one hundred sixty-eight (168) hours per year.

E. After twenty (20) years of service — at the factored hourly equivalent of one hundred ninety-five (195) hours per year.

F. After twenty-five (25) years of service — at the factored hourly equivalent of two hundred (200) hours per year.

The Department Head may require that vacation leave be taken not less than one (1) hour at a time. For the purpose of determining years of service for vacation leave, years of service will be computed following the most recent date of appointment and shall continue as depicted in items A through F. Vacation leave shall not accrue during a leave of absence without pay. Vacation leave shall be earned but will not be granted during the first six months of employment after original appointment.

An employee may accumulate vacation leave to a maximum of eighty (80) hours over and above the employee's maximum annual earning rate. No additional vacation leave shall be earned until such time as the employee’s accumulated vacation leave drops below the stated maximum. In such event, the accumulation of vacation leave will again commence, but in no event shall it exceed eighty (80) hours over and above the employee’s maximum earning rate.

In addition, upon retirement, death or reduction in force one-half (½) of the employee's sick leave payout shall be added (paid) into the employee's PEHP premium account and one-half (½) paid out in cash.

Safety glasses must be industrial grade safety glasses which meet or exceed the requirements of ANSI Specification Z87.1. All employees who are required to wear safety glasses shall be required to wear side shields, either permanent or snap-on, whenever an eye hazard exists. Solid tinted glasses will not be approved unless required by prescription. Transition lenses may be considered for those employees who primarily work outdoors.

Section 2. The City agrees to pay up to $250 for the purchase of required safety glasses. If an employee requires prescription safety glasses, the cost of the eye examination will be the responsibility of the employee. Employees will be allowed one (1) pair of safety glasses every two (2) years. The vested portion of the City's contribution must remain in the employee's account with the carrier of the retirement plan or roll that vested portion over into an authorized IRA plan.

A. GENERAL CONSIDERATIONS Full-time regular employees do not compete with part-time regular employees and vice-versa. For this purpose, full-time employment means employment in a position which does not normally require less than forty (40) hours work per week. Part-time employees may not retreat into positions which require a greater number of regularly scheduled hours than the employee is normally scheduled to work.

Separation shall be considered to mean any reduction in an employee's normally scheduled work week.

No regular employee shall be separated from any department while there are provisional, probationary, or temporary employees serving in the same class of positions in that department.

B. COMPETITIVE LEVEL The competitive level shall be the class of position to which the employee is regularly assigned (unless the position is highly specialized – a unique set of responsibilities or functions not found in any other job description within that classification and no other person in that class could perform those responsibilities without extensive experience and training) and in which he performs duties a majority of the time while in a pay status.

C. COMPETITIVE AREA The competitive area shall be the Department in which the employee is regularly assigned, and in which he performs duties a majority of the time while in a pay status.

D. RETREAT RIGHTS In the competitive area (Department) an employee may retreat to another class related to the competitive level (such as a class series), if the employee is qualified and has greater City service than an incumbent in the related class. However, the employee will not have retreat rights when the class of position is highly specialized and the employee does not possess the necessary qualifications.

Additionally, the City will permit an employee to retreat into the exact class within the employee's department so long as the employee has previously served at least one (1) year in the exact class.

An employee who has received notice of layoff and who has exercised his right to bump from a classification with pay range prefixed by “A”

to a classification with a pay range prefixed by "C" shall not have to compete if further bumping is necessary.

There shall be no retreat rights into bargaining units by non-represented employees and vice versa.

Section 1. PROCESS

A. Whenever a classified position is abolished, or a reduction in force becomes necessary, or an employee is laid off to create a vacancy for an employee moving from a higher classification, layoff shall be in reverse order of continuous service with the City.

B. An employee who has received notice of layoff shall have the privilege of bumping an employee in the same class in his Department with less continuous City service. If there are no employees in the same class with less continuous City service, he may move to the next lower classification in the class family in the employee's Department. Additionally, the City will permit employees to bump into a different class within the employee's Department so long as the employee has served at least one (1) year in that class.

C. An employee who is laid off to create a vacancy for an employee moving from a higher classification shall in turn have the privilege of moving to the next lower classification within the class family for which he is qualified, within the employee's Department, whether or not a vacancy in such lower classification exists.

D. In no case shall an employee with greater continuous City service be laid off to create a vacancy for an employee with less continuous City service.

Section 2. NOTICE Once the Mayor's budget is released to the City Council, any position unfunded or not in the base budget, the affected employee(s) in the position(s) will be notified as soon as practicable. However, in no event shall an employee receive a written notice less than ten (10) working days as per LMC 2.76.470 prior to effective date of the RIF. Employees will also be given written notice of their right to appeal such action to the Personnel Board. This appeal must be filed in writing within ten working days of receipt of the written notice of a reduction-in-force.

Employee notification will be made jointly by the Department Head and the Personnel Director.

Employees who are notified according to the above procedure must notify the Personnel Director of their decision to exercise retreat rights within three (3) working days of the receipt of such notification.

Section 3. RECALL In accordance with the provisions of Section 2.76.470(a) and Section 2.76.305, LMC, employees who are subject to a reduction in force shall be placed on re-employment lists. An employee desiring to be placed upon a reemployment list should submit a request in writing to the Personnel Department.

Employees who elect in writing to have their name placed on a recall list for the class of the position from which laid off, shall be responsible for making their current address available to the City-County Personnel Office. Recall shall be in reverse order of layoff and shall expire two (2) years from the effective date of the layoff or separation. An individual offered recall to a vacancy in the class of the position from which laid off, has the right to refuse the offer and remain on the recall list up to two (2) years. Recall lists shall be utilized City-wide and shall not be applicable only to the Department from which the employee was laid off.

A recalled employee shall have his service time computed back to his original date of employment minus the time not employed.

An employee who is laid off, and is later recalled within two (2) years, shall have available upon his return such unused sick leave accrual as he may have earned up to the time of his departure. Further, accrual rates for vacation and sick leave will be established at a level based upon the revised service time. An employee who is recalled, is eligible for enrollment in the health, dental and life insurance programs without waiting periods and reinstatement in the retirement program.
