PUBLIC NOTICE

LINCOLN-LANCASTER COUNTY HEALTH DEPARTMENT

A. In accordance with Article 2, Section 14 of the Lincoln-Lancaster County Air Pollution Control Program Regulations and Standards (LLCAPCPRS), notice is given for the following proposed actions:
   1. The preliminary determination by the LLCHD to approve the renewal of a Class II Operating Permit for the District Energy Corporation SW 40th Street Thermal Energy Facility.

B. Issuance of the proposed permit allows for continued operation of the subject emission source within Federal, State and Local requirements. Provided below are the name, address, and the North America Industry Classification System (NAICS) code describing the nature of business at the subject emission source:
   1. Source Name: District Energy Corporation SW 40th Street Thermal Energy Facility
   2. Source Address: 330 SW 40th Street, Lincoln, NE 68528
   3. NAICS Code(s): 221112 (Fossil Fuel Electric Power Generation)

C. Potential emissions allowable under federally-enforceable requirements are lower than the Class I permit thresholds set forth under Article 2, Sections 2 and 5 of the LLCAPCPRS, but still exceed the Class II permit thresholds in Article 2, Section 5 of the LLCAPCPRS. As such, the source will be classified as a 'minor' source of emissions, and the issuance of a Class II operating permit is appropriate for this facility.

D. Construction Permit #146A, which was issued to District Energy Corp. on January 26, 2011, establishes limit of 4,200 hours of combined use per year for the three diesel engines associated with this source. When the emissions associated with the 4,200 hours of operation are combined with the maximum emissions associated with miscellaneous natural gas combustion units, the facility emissions are estimated as follows. All quantities are in units of tons per year, or tpy.

Particulate matter less than 10 micrometers in diameter (PM_{10})	1.67 tpy
Particulate matter less than 2.5 micrometers in diameter ($PM_{2.5}$)	1.67 tpy
Oxides of Nitrogen (NOx)	94.99 tpy
Oxides of Sulfur (SO_2, SO_3, and combinations thereof)	2.28 tpy
Volatile Organic Compounds (VOC)	4.36 tpy
Carbon Monoxide	14.44 tpy
Lead	<0.01 tpy
Individual Hazardous Air Pollutants	0.13 tpy
Total Combined Hazardous Air Pollutants	0.19 tpy

E. The proposed permit is available for inspection during business hours at the office of the LLCHD at 3140 N Street, Lincoln, NE 68510. A copy of this public notice document may also be obtained online at: http://lincoln.ne.gov, keyword search "air". Telephone inquiries regarding this public notice may be directed to the Air Quality Program at (402) 441-8040. If alternate formats of materials are needed, please notify the Department by calling (402) 441-8040 or (402) 441-6284 for TDD users.

F. The 30-day public comment period commences April 7, 2016 and ends on May 7, 2016. Within the 30-day public comment period, any interested person, agency, or group may request or petition the Director of the LLCHD for a public hearing. All requests for public hearing must be made in writing, and must state the nature of the issues to be raised and all arguments and factual grounds supporting their position. If a public hearing is granted by the Director, the hearing will be advertised by public notice at least 30 days prior to its occurrence. Comments on the proposed permits should be mailed to:

   Chris Schroeder, Air Quality Program Supervisor
   Lincoln-Lancaster County Health Department
   Environmental Public Health Division
   3140 "N" Street
   Lincoln, NE 68510-1514
