DISCUSSION

Existing City Interlocal Agreements with the cities and villages need to be updated due to outdated code references and terminology. Health staff met with the city/village officials to discuss the proposed updated agreement, which then went forward for action by their city council or village board. The proposed Interlocal Agreement addresses: permitting and inspection of onsite wastewater treatment systems; reviewing property transfers that involve a well or an onsite wastewater treatments system; nuisance/garbage/illegal dumping complaint investigations; land use plan review; and air quality investigations. Direct costs for this work are covered by user or permit fees and waste hauler occupation tax. The term of this agreement is 10 years.
