

# PEDESTRIAN SYSTEM

+ Missing Ramp      ● Sidewalk Condition      — No Sidewalk

## CONCEPTS AND STRATEGIES:

- City's Sidewalk Repair Program is scheduled to repair sidewalks in disrepair and bring areas in to ADA compliance in 2011 in the College View neighborhood.
- Areas in severe disrepair may be fixed sooner if warranted.
- Private property owners may fix sidewalks that qualify for the repair program and then wait to be reimbursed.
- Private property owner responsible for installing new sidewalk. City can order in new sidewalk and neighborhood association can discuss possibilities with owners.
- Develop strategy for at least one side of each street to contain a continuous sidewalk.
- Installation of continuous sidewalk along perimeter of Union College campus.
- 48th Street crosswalks improved through curb bulb-outs. Possibility of special paving through neighborhood association efforts.
- Pedestrian countdown signals at crosswalks where there is a signalized intersection.
- Continue 'Safe Routes to School' efforts in neighborhood.
- Pedestrian refuge areas in 48th Street rehabilitation design containing medians.
