Flood Plain Permit No. _____

Building Permit No. _____

Special Permit No. _____

This form is used for any manmade change to improved or unimproved real estate including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations, or storage of equipment or materials. Developer must obtain all other necessary federal, state or local permits (e.g. Corps of Engineers 404 Permit, Local Levee District, etc.) before this permit can be issued.

Lot/s _____ Block _____ Subdivision _____

Type & Use of Development _____ Fill Only**COST OF DEVELOPMENT:**

\$ _____

Pre-Improvement Value of Structure (from a qualified source):*Complete only if modifying an existing structure.*

\$ _____

If the development is in a flood plain, the following shall apply.

This permit is issued with the condition that the lowest floor (including basement floor) of any new or substantially improved residential building will be elevated at least one foot above the base flood elevation. If the proposed development is a non-residential building, this permit is issued with the condition that the lowest floor (including basement) of a new or substantially improved non-residential building will be elevated or flood proofed at least one foot above the base flood elevation. The developer/owner will provide certification by a registered engineer, architect or land surveyor of the "as-built" lowest floor elevation (including basement) or floodproofed elevation of any new or substantially improved building covered by this permit.

All provisions of the Lincoln Municipal Code, Section 27.52 or 27.53; or Lancaster County Zoning Resolution, Article 11, on Flood Plain Management shall be complied with.
