

Comprehensive Plan Amendment No. 94-38

RESOLUTION NO. A-_____

1 WHEREAS, the Planning Director has made application to amend the 1994
 2 Lincoln City-Lancaster County Comprehensive Plan to incorporate the Beal Slough Basin
 3 Stormwater Master Plan for stormwater and floodplain management as an official
 4 component of the Comprehensive Plan; and

5 WHEREAS, the Lincoln City-Lancaster County Planning Commission has
 6 recommended approval of said proposed amendment.

7 NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of
 8 Lincoln, Nebraska:

9 That the 1994 Lincoln City-Lancaster County Comprehensive Plan be
 10 amended as follows:

11 1. Amend Chapter V, Public Utilities, Stormwater Management and
 12 Flood Control section on page 142 to add the following paragraph:

13 "The Beal Slough Basin Stormwater Master Plan was completed in
 14 July of 1999 and is hereby incorporated by reference as an approved
 15 component of the Comprehensive Plan. The Beal Slough Plan will
 16 serve as a tool for stormwater management within the basin and a
 17 model for other basins to be studied in the future. It is expected to be
 18 the first of a comprehensive effort to complete a Stormwater
 19 Management Master Plan by studying each basin within Lincoln and
 20 its anticipated growth areas. Future master planning efforts for
 21 largely undeveloped basins will rely more heavily on pro-active better
 22 management practice (BMP) measures and the conservation of
 23 existing natural attenuation features within the drainage regime to
 24 most effectively manage stormwater. Designs of human made
 25 features will seek to utilize bioengineering and other naturalized
 26 techniques, incorporating trail systems and other linear park features
 27 where possible."

28 2. Amend Page 145, "Strategies," as follows:

29 "Complete a Stormwater Management Master Plan for the City of
 30 Lincoln and its projected growth areas that emphasizes pro-active
 31 stormwater planning for future developing basins."

3. Amend Page 145, "Strategies" to include the following additional strategy:

"The City and County should utilize the Beal Slough Basin Stormwater Master Plan recommendations, project components and computer modeling as analysis tools to be referenced and compared with proposed private and public development in the Beal Slough drainage basin; projects identified in the Plan should be considered in preparing future capital improvements projects."

BE IT FURTHER RESOLVED that any other references in said plan which may be affected by the above-specified amendments be, and they hereby are amended to conform to such specific amendments.
