

AGREEMENT

CITY OF LINCOLN
STATE OF NEBRASKA, DEPARTMENT OF ROADS
PROJECT NO. STPP-5214(2), STATE CONTROL NO. 12514
SHERIDAN BOULEVARD AT 33RD ST. IN LINCOLN
INTERSECTION ROUNDABOUT

THIS AGREEMENT, made and entered into by and between the City of Lincoln, hereinafter referred to as the "City", and the State of Nebraska, Department of Roads, hereinafter referred to as the "State",

WITNESSETH:

WHEREAS, certain street improvements in the City have been designated as being eligible for Surface Transportation Program (STP) Funds by the Department of Transportation, Federal Highway Administration, hereinafter called the FHWA, in compliance with Federal laws pertaining thereto, and

WHEREAS, STP Funds have been made available by Title 23 of the United States Code, providing for improvements on eligible city streets, and

WHEREAS, the Federal share payable will be a maximum of 80 per centum of the eligible costs, up to a maximum of \$200,000, and

WHEREAS, regulations for implementing the provisions of the above mentioned act provide that the Federal share of the cost of those projects will be paid only to the State, and

WHEREAS, the City will supervise the contract letting and shall ensure that the project receives the same degree of supervision and inspection as a project constructed under a contract let and directly supervised by the State, and

WHEREAS, the regulations further permit the use of funds other than State funds in matching Federal funds for improvements to those city streets, and

WHEREAS, the State is willing to cooperate to the end of obtaining Federal approval of the proposed work and Federal funds for the construction of the proposed improvement, with the understanding that no State Funds are to be expended on this project, and

WHEREAS, the funding for the project under this agreement, includes pass-through monies from the Federal Highway Administration (FHWA). If a non-federal entity expends \$300,000 or more in total federal awards in a fiscal year, then the A-133 audit is required as explained further in this agreement, and

WHEREAS, Federal Regulations provide that the City shall not profit or otherwise gain from local property assessments that exceed the City's share of project costs, and

WHEREAS, the City desires this project as shown on attached EXHIBIT "A" be constructed under the designation of Project No. STPP-5214(2), as evidenced by the Resolution of the City dated the _____ day of _____, 2001, attached as EXHIBIT "B" and made a part of this agreement, and

WHEREAS, the total cost of nonbetterment utility rehabilitation, construction and construction engineering is estimated to be \$200,000, and

WHEREAS, the City has earmarked and will place in its fiscal budget \$40,000, which is estimated to be the City's share of the costs, however, both the State and City recognize this is only an estimate and that final costs may be higher or lower, and

WHEREAS, the project is described as follows:

Reconstruct the 33rd and Sheridan intersection in Lincoln to provide a concrete roundabout. Limits of construction are from 300 feet west of 33rd Street to 300 feet east of 33rd Street and on 33rd Street approximately 100 feet north of Sheridan to 100 feet south.

NOW THEREFORE, in consideration of these facts, the State and City agree as follows:

SECTION 1. The State agrees to present the project to the FHWA for its approval, if necessary.

SECTION 2. The funding for the project under this agreement includes pass-through federal monies from the FHWA. According to the Single Audit Act Amendments of 1996 (signed into law by President Clinton on July 5, 1996) and the implementing regulations contained in OBM Circular A-133, the A-133 Audit is required if the non-federal entity expends \$300,000 or more in total federal awards in a fiscal year. Non-federal entity means state and local governments and non-profit organizations.

The City shall have its finance officer or auditor, review the situation to determine what the City must do to comply with this federal mandate. If applicable, the expenditures related to the FHWA should be shown in the Supplementary Schedule of Expenditures of the Federal Awards under U.S. Department of Transportation as a pass-through Nebraska Department of Roads, Federal CFDA Number 20.205. If an A-133 Audit is performed, the City shall send the audit report to the Nebraska Department of Roads, Highway Audits Manager, P.O. Box 94759, Lincoln, NE 68509-4759.

SECTION 3. The City, with assistance as may be required from the State, agrees to perform or cause to be performed a preliminary survey and all necessary plans, specifications and estimates for the proposed work. The City agrees to acquire any or all permits necessary to accomplish the project and shall present all plans, specifications, estimates to the State for approval.

SECTION 4. The City agrees to provide the State with current project schedules, and progress reports of critical milestones (start date, public meetings/hearings, P.I.H., 100% plans, letting date, construction start and ending date, etc.)

SECTION 5. The City shall design the project according to the current publications of State of Nebraska Standard Specifications for Highway Construction, AASHTO Policy on Geometric Design of Highways and Streets, the Minimum Design Standards of the Board of Classifications and Standards and the Americans with Disabilities Act (ADA) Accessibility Guidelines. All plans, specifications and bid proposals, permits and any other contract documents must be submitted to and approved by the State prior to any bid letting. Any deviations from the above must be approved by the State.

SECTION 6. The State and City agree that the construction engineering, which is an eligible project expense and which includes construction staking, inspection and field testing, will be accomplished by City forces or a State Certified Consultant selected by the City.

The City agrees, if a Consultant is to be selected, that the method of selection and the resulting agreement between the Consultant and the City must conform to the State's standard practices and will be subject to State review and concurrence prior to agreement execution between the City and the Consultant.

The inspection, sampling and testing of all materials must be done in accordance with the current State of Nebraska Standard Specifications for Highway Construction, the State Materials Sampling Guide and the State Standard Methods of Tests. The City shall send a letter of certification to the State's Urban Engineer, whose address is Nebraska Department of Roads, Roadway Design Division, P.O. Box 94759, Lincoln, NE 68509-4759, stating that all test results of materials used on the project, manufacturer's certificates of compliance and manufacturer's certified test reports meet specification requirements and are on file with the City. Any deviations from the specification requirements for sampling and testing must be identified and explained in the certification letter. The State will provide quality assurance, as may be required, to include random sampling and testing of material as well as random checks of test method procedures being performed by the inspector. In all cases, the State will provide a State Representative designated by the State on a part-time basis, who will serve to inspect the project to ensure that the City is in compliance with the plans, contracts, scope of work, regulations, statutes, etc., in order that Federal funds may be expended on the project and the State Representative will conduct a final review of the project. The City shall contact the District Engineer, Richard J. Ruby, whose address is 302 Superior Street, P.O. Box 94759, Lincoln, NE 68509-4759, for State Representative assignment. It is understood that any construction engineering services

furnished by the State will be part of the cost of the project and the State's expenses will be included as costs of the project as specified in this agreement.

The City shall provide a Project Manager to oversee the project and to ensure that the construction engineering performed by City forces or the City's Consultant comply with requirements for Federal funding. The Project Manager's services include, but are not limited to, attending the preconstruction conference, project management as required and preparing contractor change orders and supplemental agreements.

SECTION 7. Any preliminary engineering services to be performed by the City, State or by a Consultant will be funded solely with City Funds and will not be eligible for Federal participation.

SECTION 8. The State and City agree the City is to advertise and conduct a letting and receive bids for the contemplated improvement. The selection of low bidders and the awarding of a contract or contracts must be submitted to the State for concurrence. The City shall sign the contract or contracts. After signing, the City shall send a copy of the signed contract or contracts, including all plans and specifications, to the State at Urban Engineer and to the District Engineer. Prior to advertising for Project Letting, the City shall forward a Right-of-Way Certificate to the Urban Engineer. The total cost of nonbetterment utility rehabilitation, construction, and construction engineering is estimated to be \$200,000.

SECTION 9. The State agrees to reimburse the City, using Federal Funds, for 80 percent of the actual eligible cost of the improvement up to a maximum of \$200,000. Progress billings to reimburse the City may be submitted no more often than monthly. The State will pay 95 percent of the 80 percent Federal share until 95 percent of the contractor's costs, or 95 percent of the maximum Federal share has been reimbursed. The final settlement between the State and the City will be made after final review and approval by the State and after an audit, if deemed necessary by the State, has been performed to verify actual eligible costs. The City agrees to reimburse the State for any overpayments discovered by the State or its authorized representative.

The City further agrees, that if reimbursement to the State is required on this project, and if the City is unable to or does not make reimbursement within 60 calendar days after the State notifies the City of such required reimbursement; the State by this agreement is authorized to withhold money from highway funds apportioned or to be apportioned to the City, in an amount equal to the required reimbursement to the State.

Costs incurred by the State with respect to the entire project will be a part of the cost of the project to be paid out of City and Federal funds. Costs incurred by the State attributable to this project, will not include any administrative costs or expenses of administrative officials. The State

may, at its discretion, initiate progress invoices for costs incurred by the State during the progression of the project and the City agrees to pay those invoices within thirty days of their receipt. The City's share of the total project cost will be all costs not paid for by Federal funds.

The criteria contained in Part 31 of the Federal Acquisition Regulations System (48 CFR 31) will be applied to determine the allowability of costs incurred by the City under this agreement.

The City shall maintain all books, documents, papers, accounting records and other evidence pertaining to costs incurred and shall make such material available at its office at all reasonable times during the contract period and for three years from the date of final payment under this agreement; such records to be available for inspection by the State and the FHWA or any authorized representatives of the Federal government, and the City shall furnish copies to those mentioned when requested to do so.

It is mutually agreed that final approval of the project will be made by the State and that final payment will not be made to the City until the State has approved the project.

SECTION 10. The City understands that payment for the costs of this project, whether they be services, engineering, Right-of-Way, utilities, material or otherwise, are the sole responsibility of the City where Federal participation is not allowable or available. Therefore, where the Federal government refuses to participate in this project or any portion of this project, the City will be responsible for full project payment with no cost or expense to the State in this project or any portion of this project. Should this project be abandoned before completion, the City shall pay all costs incurred by the State prior to such abandonment.

SECTION 11. The City agrees to locate and reference or have located and referenced all section corners, quarter section corners and sub-division lot corners required for construction of the proposed project in accordance with Section 39-1708 et. seq., R.R.S. 1943 as amended.

SECTION 12. The Federal share of this project must be reduced by any project specific local property assessments that exceed the appropriate local share on this project. This is subject to State review.

SECTION 13. If Federal participation is to be received for any portion of the work on the proposed project, it is necessary that all phases of work, including, but not limited to, preliminary engineering, acquisition of Right-of-Way and construction be accomplished in accordance with the appropriate Federal requirements.

SECTION 14. If the City performs any part of the work on this project itself, the City agrees to abide by the provisions of the Nebraska Fair Employment Practices Act as provided by Neb.Rev.Stat. §48-1101, through 48-1126 (Reissue 1998), and all regulations relative to

nondiscrimination in federally assisted programs of the Department of Transportation, Title 49 CFR, Parts 21 and 27 as set forth in SECTION 16 of this agreement.

SECTION 15. DISADVANTAGED BUSINESS ENTERPRISES

A. Policy

The City agrees to ensure that disadvantaged business enterprises as defined in 49 CFR Part 23 will have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this agreement. Consequently, the disadvantaged business requirements of 49 CFR Part 23 are hereby made a part of and incorporated by this reference into this agreement.

B. Disadvantaged Business Enterprises Obligation

The City and State agree to ensure that disadvantaged business enterprises as defined in 49 CFR Part 23 have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this agreement. In this regard, the City shall take all necessary and reasonable steps in accordance with 49 CFR Part 23 to ensure that disadvantaged business enterprises have the maximum opportunity to compete for and perform contracts. The City shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of FHWA assisted contracts.

The City, acting as a subrecipient of Federal-aid funds on this project agrees to adopt the disadvantaged business enterprise program of the State for the Federal-aid contracts the City enters into on this project.

Failure of the City to carry out the requirements set forth above shall constitute breach of contract and, after the notification of the FHWA, may result in termination of the agreement or contract by the State or such remedy as the State deems appropriate.

SECTION 16. NONDISCRIMINATION CLAUSES

During the performance of this agreement, the City, for itself, its assignees and successors in interest agrees as follows:

- (1) Compliance with Regulations: The City shall comply with the Regulations of the Department of Transportation relative to nondiscrimination in federally assisted programs of the Department of Transportation (Title 49, Code of Federal Regulations, Parts 21 and 27, hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this agreement.
- (2) Nondiscrimination: The City, with regard to the work performed by it after award and prior to completion of the contract work, shall not discriminate on the basis of disability, race, color, sex, religion or national origin in the selection and retention of subcontractors,

including procurements of materials and leases of equipment. The City shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendixes "A," "B," and "C" of Part 21 of the Regulations.

- (3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by the City for work to be performed under a subcontract, including procurements of materials or equipment, each potential subcontractor or supplier shall be notified by the City of the City's obligations under this agreement and the Regulations relative to nondiscrimination on the basis of disability, race, color, sex, religion or national origin.
- (4) Information and Reports: The City shall provide all information and reports required by the Regulations, or orders and instructions issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the State or the FHWA to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the City shall so certify to the State, or the FHWA as appropriate, and shall set forth what efforts it has made to obtain the information.
- (5) Sanctions for Noncompliance: In the event of the City's noncompliance with the nondiscrimination provisions of this agreement, the State will impose such contract sanctions as it or the FHWA may determine to be appropriate, including but not limited to,
 - (a) withholding of payments to the City under this agreement until the City complies, and/or
 - (b) cancellation, termination or suspension of this agreement, in whole or in part.
- (6) Incorporation of Provisions: The City shall include the provisions of paragraph (1) through (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, order, or instructions issued pursuant thereto. The City shall take such action with respect to any subcontract or procurement as the State or the FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance; provided, however, that, in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the City may request the State to enter into such litigation to protect the interests of the State, and in addition, the City may request the United States to enter into such litigation to protect the interests of the United States.

SECTION 17. Changes to the City street which affect the function or operation of the improvement made either during construction or after the project is completed, will require prior approval of the State. Requests for changes during project construction must be made to the State Representative through the District Engineer's office.

Upon project completion and final inspection, the City shall send one set of "As-Built" plans to the State's Urban Engineer.

SECTION 18. Upon completion, the City shall maintain this project at its own expense, and make provisions each year for the maintenance costs involved in properly maintaining this facility.

SECTION 19. Any utility rehabilitations or installations made within the Right-of-Way of this project after execution of this agreement must be in accordance with the provisions of Federal-Aid Highway Policy Guide, 23 CFR 645A, "Utility Relocations, Adjustments and Reimbursement", and Federal-Aid Policy Guide, 23 CFR 645B, "Accommodation of Utilities" issued by the U.S. Department of Transportation, FHWA, or a State approved Utility Accommodation Policy. In order to receive Federal-Aid Funds for this improvement, the City agrees to follow the current "Policy for Accommodating Utilities on State Highway Right-of-Way."

All nonbetterment municipally owned and operated utility rehabilitation costs within the corporate limits of the City will become a project cost, but that outside of the corporate limits, only the nonbetterment portion of the rehabilitation costs of facilities currently occupying private Right-of-Way will be reimbursed. Further, there will be no Federal reimbursement for private or nonmunicipally owned and operated utilities if they are located on public Right-of-Way, however, nonbetterment costs of privately owned and operated utilities will be reimbursed if they exist on privately owned Right-of-Way and it is necessary to rehabilitate the utilities due to this project. All such reimbursements must be based on items and estimates submitted by the utility and approved by the City and State. Should this project necessitate the nonbetterment rehabilitation of any privately owned and operated utilities, then the City shall send the State an estimate of those nonbetterment utility rehabilitation costs. The City shall pay for utility nonbetterment rehabilitation and then bill the State for those eligible reimbursement costs. All reimbursements will be based on the actual costs of material, services and labor. This will be subject to audit, if the State deems that one is necessary.

SECTION 20. If Federal participation is requested in Right-of-Way appraisal or acquisition, the State on behalf of the City, will review the appraisals and negotiations for any additional Right-of-Way. The City will be responsible for any eminent domain proceedings required for acquisition of the necessary property. The appropriate procedures as outlined in the current Nebraska Right-of-Way Manual approved by the FHWA must be followed. Regardless of

whether or not Federal funds are requested for the Right-of-Way, the City agrees to contact the State prior to beginning any Right-of-Way activity in order that the State may advise the City of the required Right-of-Way functions and procedures. It is understood that any Right-of-Way services furnished by the State will be part of the cost of the project and the State's expenses will be included as costs of the project as specified in this agreement.

SECTION 21. The City agrees, at no cost to the project, to clear the present Right-of-Way on this project of all advertising signs. The City also agrees, at no cost to the project, to clear any other privately owned facility or thing that may interfere with the construction, maintenance and operation of the improvement planned for this project, and to keep the old and new Right-of-Way free of future encroachments, except those authorized by permit.

SECTION 22. The City agrees, and shall certify after accomplishment, that any Right-of-Way for this improvement not donated in compliance with the FHWA guidelines will be acquired in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as amended, 49 CFR 24, and the State's Right-of-Way Manual as approved by FHWA.

SECTION 23. In the event that Relocation Assistance (financial aid to those persons relocated due to the road improvement) as defined in Public Law 91-646 (42 U.S.C. 4601) as amended, 49 CFR 24, and Neb.Rev.Stat. §76-1214 through 76-1238 (Reissue 1996), is required for this improvement, the City shall enter into an appropriate agreement with the State in order that the State may perform the necessary and required relocation assistance functions. All relocation assistance services furnished by the State in this connection will be part of the cost of the project and the State's expenses will be deducted from the Federal monies received prior to reimbursement to the City.

SECTION 24. Traffic control during project construction must conform to the Manual on Uniform Traffic Control Devices. Before final acceptance of the project by the State, all signing and marking must be in conformance with the current Manual on Uniform Traffic Control Devices.

IN WITNESS WHEREOF, the City and State have caused these presents to be executed
by their proper officials thereunto duly authorized as of the dates below indicated.

EXECUTED by the City this ____ day of _____, 2001.
