City of Lincoln Water and Wastewater Utilities
555 South 10th Street
Lincoln, Nebraska 68508

We are pleased to confirm the arrangements of our engagement and the nature of the services we will provide to The City of Lincoln Water and Wastewater Utilities.

ENGAGEMENT OBJECTIVES

We will audit the general purpose financial statements of The City of Lincoln Water and Wastewater Utilities as of and for the year ended August 31, 2003 in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

The objectives of our audit are:

- ✓ Expression of an opinion on the conformity of your financial statements, in all material respects, with accounting principles generally accepted in the United States of America.
- ✓ Issuance of a report on your compliance based on the audit of your financial statements.
- ✓ Issuance of a report on your internal control over financial reporting based on the audit of your financial statements.
- ✓ As part of our audit of The City of Lincoln we will express an opinion on your compliance, in all material respects, with the types of compliance requirements described in the *U. S. Office of Management and Budget Circular A-133 Compliance Supplement* that are applicable to your major federal award programs.

OUR RESPONSIBILITIES

Auditing standards generally accepted in the United States of America and *Government Auditing Standards* require that we plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Our audit is designed to detect misstatements that, in our judgment, could have a material effect on the financial statements taken as a whole. Consequently, our audit will not necessarily detect errors or fraud resulting in an immaterial misstatement of the financial statements.

An audit also includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we will communicate to you any matter that comes to our attention that we consider a reportable condition. Because of the limits in any internal control structure, errors, fraud, illegal acts or instances of noncompliance may occur and not be detected. Also, in the future, procedures could become inadequate because of changes in conditions or deterioration in design or operation. Two or more people may also circumvent controls, or management may override the system.

If, for any reason, we are unable to complete our audit or are unable to form or have not formed an opinion, we may decline to express an opinion or decline to issue a report as a result of this engagement. If we discover conditions that may prohibit us from issuing a standard report, we will notify you as well. In such circumstances, further arrangements may be necessary to continue our engagement.

YOUR RESPONSIBILITIES

To facilitate our audit, management is responsible for making all financial records documentation and other financial and compliance related information available to us. At the conclusion of our engagement, management will provide to us a letter acknowledging certain responsibilities outlined in this engagement letter and confirming:

- The availability of this information
- Certain representations made during the audits for all periods presented
- The effects of any uncorrected misstatements, if any, resulting from errors or fraud aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole

Management is responsible for fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, for adjusting the financial statements to correct material misstatements and for identifying and ensuring compliance with the laws, regulations, contracts and grants applicable to your activities. Management is also responsible for establishing and maintaining effective internal control over financial reporting and compliance, which is the best means of preventing and detecting errors, fraud, illegal acts, and instances of noncompliance.

The results of our tests of compliance and internal control over financial reporting performed in connection with our audit of the financial statements may not fully meet the reasonable needs of report users. Management is responsible for obtaining audits, examinations, agreed-upon procedures or other engagements that satisfy relevant legal, regulatory or contractual requirements or fully meet other reasonable user needs.
