## WASTE CONNECTIONS INC.

*Connect with the Future®*

Waste Connections is an integrated solid waste services company that provides solid waste collection, transfer, disposal and recycling services in mostly secondary markets in the Western and Southern U.S. The Company serves more than one million residential, commercial, and industrial customers from a network of operations in 23 states.

We believe the solid waste service business is a local business managed by professionals living and working in the communities we serve. We strive to provide service excellence for those communities that place their trust in our company and are always dedicated to putting our customers first. We look to technology and growth to help our customers, employees and shareholders "Connect with the Future". As a public company, we have the resources to meet every customer's needs in a cost effective and environmentally compatible manner. We understand the markets, the philosophy and the unique needs of the customers we serve whether they be industry, commercial accounts, municipal jurisdictions or individual subscribers.

Waste Connections Inc., the fourth-largest waste hauler in the United States, owns Midwest Refuse. The company was founded in 1997 by a dedicated group of industry professionals with over 50 years of industry experience through the purchase of five operations in Washington and Idaho from Browning-Ferris Industries. The company rapidly expanded into the California market with the addition of Madera Disposal Systems in early 1998 and now has operations throughout the Midwest and Western United States.

Being the largest hauler in the state of Nebraska, we have the luxury of retaining the best of the industry. With over 60 trucks in our Nebraska fleet running daily, Midwest Refuse has the personnel to devote to your waste removal needs. Our trucks are maintained nightly for safety; and being a "no tolerance" organization, you know our drivers are the safest in the industry. If there was ever a major disaster in the Omaha marketplace we would be able to pull trucks from our sister companies and be up and running in no time at all.

The staff of Midwest Refuse that would be assigned to your account has the background and industry knowledge that comes with being the best in the

industry. Our staff has been through many years of training on industry trends and topics to be able to provide you with the expertise you deserve. The following management individuals that will be assigned to your account have over 70 years of experience between them so you know you are in good hands. Individual resumes cannot be released due to employee confidentiality regulations. If awarded the contract, Contractor personnel will release resume and background information to obtain identification.
