COMPREHENSIVE PLAN SPECIFICATIONS:

The 2025 Lincoln City/Lancaster County Comprehensive Plan designates this area as Urban Residential land use (19)

The guiding principles for new neighborhoods are a combination of principles found in this section in addition to the principles for all other sections within the plan, such as Business and Commerce and Mobility and Transportation. A neighborhood is more than housing – great neighborhoods combine all the elements of parks, education, commercial areas, the environment and housing together in one place.

1. Encourage a mix of housing types, single family, townhomes, apartments, elderly housing all within one area;
2. Similar housing types face each other: single family faces single family, change to different use at rear of lot;
3. Parks and open space within walking distance of all residences;
4. Multi-family and elderly housing nearest to commercial area;
5. Pedestrian orientation; shorter block lengths, sidewalks on both sides of all roads;
6. Public uses (elementary schools, churches) as centers of neighborhood – shared facilities (city parks & school sites);
7. Encourage shopping and employment uses to be at within the neighborhoods and within walking distance to most residences (which may also serve as locations for transit stops.)

The ANNEXATION POLICY

Annexation policy is a potentially powerful means for achieving many of the goals embodied in the Plan's Vision. The annexation policies of the City of Lincoln include but are not limited to the following:

The provision of municipal services shall coincide with the jurisdictional boundaries of the City – in short, it is not the intent of the City of Lincoln to extend utility services (most notably, but not necessarily limited to, water and sanitary sewer services) beyond the corporate limits of the City.

The extension of water and sanitary sewer services shall be predicated upon annexation of the area by the City. City annexation shall occur before any property is provided with water, sanitary sewer, or other potential City services.

Land which is remote or otherwise removed from the limits of the City of Lincoln will not be annexed; land which is contiguous to the City and generally urban in character may be annexed; and land which is engulfed by the City should be annexed.

Annexation generally implies the opportunity to access all City services. Voluntary annexation agreements may limit or otherwise outline the phasing, timing or installation of utility services (e.g., water, sanitary sewer), and may include specific or general plans for the private financing of improvements to the infrastructure supporting or contributing to the land uses in the annexed area.

The character of existing residential areas should be respected as much as possible during the annexation process. When low density "acreage" areas are proposed for annexation due to the City's policy, additional steps should be taken to ease the transition as much as possible, such as public meetings, advance notice and written explanation of changes as a result of annexation. In general, many aspects of acreage life may remain unchanged, such as zoning or covenants. However, any annexation of existing residential areas will include some costs which must be the responsibility of property owners.

Annexation to facilitate the installation of improvements and/or possible assessment districts is appropriate if it is consistent with the annexation policies of the Plan listed above.

Plans for the provision of services within the areas considered for annexation shall be carefully coordinated with the Capital Improvements Program of the City and the County. (154)

UTILITIES: Existing

TOPOGRAPHY: This area generally slopes south east.

TRAFFIC ANALYSIS: This site is planned as the second phase of the Wilderness Hills 1st Addition preliminary plat. This area has full access to S. 27th Street via Hoy Street and Whispering Wind Boulevard. According to the associated preliminary plat, eventually this area will have an additional access to Rokeby Road via S. 29th Street and will have numerous additional routes connecting it to the remainder of the planned neighborhood to the east and north.

PUBLIC SERVICE: The Lincoln Fire Department indicated that they find the application acceptable, but noted that limited facilities in the area may cause greater response times as development continues.

ALTERNATIVE USES: The proposed area of application is currently in agriculture use. A preliminary plat has been approved with the assumption that this area would be annexed and re-zoned to R-3 residential.

ANALYSIS:

1. This is a request for a change of zone from AG Agricultural to R-3 Residential for an area approximately 33.6 acres in size on land generally located on the east side of S. 27th Street between Whispering Wind Boulevard and Rokeby Road. It is the second phase of development for the Wilderness Hills 1st Addition Preliminary Plat.
2. Associated with this request, the applicant has submitted an annexation for this area consisting of 10.01 acres. A majority of the land that is being re-zoned is already inside the City limits. This Annexation does not require an annexation agreement. All infrastructure issues regarding sanitary sewer, water, and roads were addressed at the time of preliminary plat. There is no reimbursement required for the rural fire district.
3. This change of zone is based on the approved preliminary plat for Wilderness Hills and will permit residential uses. A final Plat for this area is in process and will be approved if the Change of zone and Annexation are approved by City Council.
4. No other departments have objections to the application for a change of zone or annexation.
5. This request is consistent with the Future Land Use Plan which designates this area as Urban Residential.
