

Who Will Pay For In-Home Services?

Medicare

Medicare - Pays the full cost of medically necessary home health visits that meet specific criteria by a Medicare approved home health agency. A home health agency is a public or private agency that provides skilled nursing care, physical therapy, speech therapy, and other therapeutic services in the patient's home. These services are usually provided on a periodic basis by a visiting nurse and/or home health aide. Some services may require you to be confined to your home and be under a physician's care. *Check with your home health agency regarding Medicare coverage.*

Medicare Hospice Care - Medicare pays for hospice care for terminally ill beneficiaries who choose to receive hospice care rather than regular Medicare benefits for management of their illness. Medicare hospice is primarily a program of care provided in the patient's home by a Medicare approved hospice provider. *The focus is on care and not cure. Ask your hospice care provider about specific Medicare coverage.*
