

Building the First “Steamship” in History

by

John Laurence Busch

based upon his book

STEAM COFFIN

Captain Moses Rogers and The
Steamship *Savannah*
Break the Barrier

Historian and author John Laurence Busch will attempt to re-calibrate your mind before showing why the proposition of making the first crossing of the Atlantic Ocean on a "steamship" was met with a mixture of skepticism and fear. Then he will show how Captain Rogers possessed and practiced a variety of leadership traits and techniques that allowed him to build a new kind of steam vessel, capable of overcoming the dangers of the deep.
