### Earl Nightingale Biography

Earl Nightingale was born in Los Angeles, CA, in 1921. By the time he was 12, his father had left his mother alone to raise Earl and two brothers. At the bottom of the Great Depression, they were forced to live in a tent on the waterfront in Long Beach. While being poor didn’t bother some kids, it bothered Earl. He wondered why some people were poor, others rich; some miserable, others seemingly happy. He wanted to know what made people turn out the way they do. Thus, he began a 17 year quest to uncover the secret of success...and he found it in a book by Napoleon Hill entitled, “Think and Grow Rich: We Become What We Think About.” Author of “The Strangest Secret” and “Lead the Field”, Mr. Nightingale’s best selling books and programs continue to inspire new generations around the world to reach their highest potential.
