Aetna Choice[®] POS II plan
Health care that gives you options

aetna[®]

A health insurance plan where your choice takes the lead

This plan gives you flexibility

- You can visit any doctor you want, in or out of our network.
- And you don't need to get a referral form to visit one.

You don't have to choose a primary care physician (PCP) either. **But you may want to.**

That's because PCPs in our network do more than give you a checkup. They know you and your medical history. They can help guide you on important health decisions and direct your care.

And, depending on your specific plan, seeing a PCP could cost less.

This plan also gives you access to tools, tips, programs and services. They can help you find doctors, estimate costs and more.

Looking for your exact copay amounts? Let's walk through this plan and see what's covered.

All employer health plans are different. This booklet gives an idea of how the Aetna Choice POS II plan works.

For details like copays, coinsurance and what's covered, check your Summary of Benefits and Coverage document. It should be in your enrollment kit. If you do not have it, ask your employer.

A point-of-service (POS) plan lets you visit network and out-of-network doctors and hospitals. It's your choice.

Health insurance plans are offered, underwritten and/or administered by Aetna Life Insurance Company (Aetna).

How your plan works

You pick your doctors — no referrals needed to see them

Option 1: Use our network*

Network doctors contract with us to offer rates that are often lower than their regular fees. So choosing a PCP or another network doctor will help you save money. Your PCP and network doctors also work directly with us. They'll send us claims for the services you receive. And get approval for coverage of some services when it's needed.

Don't worry — this is all behind-the-scenes work when you choose network doctors.

Plus, they're easy to find. Just visit [aetna.com](https://www.aetna.com).

This network option may cost you less.

Option 2: Go outside our network*

You can also visit licensed providers who are not in our network. Out-of-network doctors and hospitals do not contract with us. So that means:

- They normally charge more for their services
- You might have to pay the difference between what your plan pays for services and the amount they charge

They also do not work with us like network providers do. They generally don't send us claims or get approval for coverage when needed. So you may need to handle these details on your own.

This out-of-network option may cost you more.
