6 improvements, debt service, and the operation and maintenance of the system to provide

8 WHEREAS, Lincoln's wastewater infrastructure is a necessary component and is
9 required under city charter to be provided to all areas served within the city limits.

4 either to the City or to the user, he shall use the average amount of water used by like users
5 during such winter billing cycle to compute such charge.

6 (c) For any non-residential property, the basic wastewater use charge for a given billing
7 cycle shall be determined by multiplying for each cycle the amount of water or wastewater, in
8 hundreds of cubic feet, measured for said property during such cycle, by the basic wastewater
9 use unit charge.

10 (d) Non-residential users shall be given credit, at the same rate, for water not discharged
11 into the sanitary sewers provided such water is separately metered with the approval of the
12 Public Utilities Department and at the customer's expense.

13 (e) Where a wastewater flow meter or other wastewater measuring device is required or
14 permitted by the Director and is used to measure the volume of wastewater discharged into the
15 Lincoln Wastewater System, such wastewater use charge shall be computed thereon at the basic
16 wastewater use unit charge.
