Annual Requirement for Calibrated Gas, Quote No 4260

November 19, 2014

Saf-T-Gard would be happy to extend the contract however manufacturer of these gases Portagas raised our costs and we have to pass on these increases on to the City pricing.

We have not raised pricing for last several years of the contract, but Portagas did have a price increase in 2014 and plans one for 2015. Please find attached two letters from the manufacturer about these increases. 2014 increase was 5% and 2015 increase is 3%.

So we need to pass on combined 8% increase on to City's final prices for 2015.

Please confirm your approval and we would be happy to continue for another year on our contract.

Thank you for your support,

Supplier Notes

Quoting a brand we already are supplying for your Fire dept, on awarded city cotract.

Portagas is a manufacturer of these gases, meanwhile Gasco is just a distributor.

Portags recyclable cylinder program called Portagreen is quite different than the Gasco program. The Portagreen solution is much easier and convenient for your customer as compared to the Gasco program. Each of our cylinders comes with a prepaid FedEx return label. All they have to do is strip off the content label which will reveal the return label, place the cylinder in the return tube, and hand it to the FedEx courier. Below is a short four minute demonstration of the new green cylinders and the Portagreen Strip & Ship recyclable cylinder program. You should forward this along with our brochure (see attached) to your customer.
