

Outcome Choices:	Descriptions:
Transport-ALS	Medic Units use this when the patient is transported and ALS skills/assessment tools are utilized on the patient.
Transport-BLS	Medic Units use this when the patient is transported and only BLS skills/assessment tools are utilized on the patient.
Transport-No Pt, Team Only	Medic units use this when they are transporting a Specialty Care team without a patient. (Ex. Taking the Specialty Care team back to the airport after delivering the patient to the hospital)
Transport-SCT with Pt	Medic units use this when they are transporting a Specialty Care team with a patient
ALS Treat& Release	Select this when the patient is treated using ALS procedures/interventions and the patient refuses transport
Assisted w/care in progress	Engine and Truck companies select this outcome when the medic unit arrives at the patient's side first, or when the medic unit and engine/truck companies arrive at the patient's side simultaneously.
Assisted with Lifting & Moving	Select this when you are dispatched to assist the medic unit with moving the patient from the medic unit into the hospital emergency department
Assisted with Scene Safety	Select this outcome if you are dispatched to ensure scene safety. Typically, this will be applying Hi-Dri at a motor vehicle collision.
Care Transferred to LFR Staff	Engine or Truck companies select this outcome if they arrive at the patient's side and initiate patient contact prior to the medic unit arriving at the patient's side. Selecting this outcome requires the patient care report to be printed to the hospital printer if the patient was transported to the hospital by one of LFR's medic units.
Care Transferred to Other	Select this outcome if you have initiated patient contact on scene and turn the care of the patient over to any other EMS agency
Care Transferred to Specialty Care	Select this outcome if you have initiated patient contact on scene and turn the care of the patient over to the Specialty Care Team
Care Transferred to Star Care	Select this outcome if you have initiated patient contact on scene and turn the care of the patient over to the Star Care Team
Cxl - By Dispatch	Select this outcome when you are canceled by law enforcement prior to arriving at patient's side
Cxl - By Law Enforcement	Select this outcome when you are canceled by dispatch prior to arriving at patient's side
Cxl - By LFR Medic Unit	Select this outcome when you are canceled by an LFR medic unit prior to arriving at patient's side
Cxl - By LFR Unit-Other	Select this outcome when you are canceled by an LFR fire unit prior to arriving at patient's side
Cxl - By Other Dept, LFR Arrival	Select this outcome when you are canceled by an agency other than LFR after arriving on location
Cxl - By Other Dept, LFR Enroute	Select this outcome when you are canceled by an agency other than LFR prior to arriving on location
Cxl - Diverted By EMD	Select this outcome when you are diverted by EMD to a higher priority ca
Cxl - Never Dispatched	Select this outcome when you have been given an incident number but were never dispatched to the incident. This typically occurs when dispatch assigns your unit to an incident and then takes your uni off the incident prior to toning it out
Cxl - No Person At Scene	Select this outcome when you arrive on location and there is no person at that location
Death - Resuscitation Terminated At Scene	Select this outcome when you initiate resuscitative measures on scene and terminate those measures prior to transporting the patient to the hospita
Death On Scene - No Resuscitation Effort	Select this outcome for a DOA with no resuscitation attempt
Person has no complaints	Select this outcome when you encounter a person that has no complaints, no apparent injuries and no medical necessity
Ref AMA, Ref Treatment	Select this outcome when you assess a patient, determine treatment is necessary and the patient refuses treatment.
Ref-AMA, Treated Ref Transport	Select this outcome when you assess and treat a patient, determine that the patient needs to go to the hospital and the patient refuses transport
Ref-AMA, Refused Assessment	Select this outcome when you determine that the patient requires assessment based on dispatch information or physical appearance and the patient refuses to allow you to assess them
Ref-Assessed and Ref Transport	Select this outcome when you assess the patient and based on your assessment determine the patient does not need treatment and transport. This would be deemed an appropriate refusal

Ref-Assessed and Ref Treatment	Select this outcome when you assess a patient and determine that the patients condition and/or injuries are minor in nature and the patient refuses treatment and/or transport. This would be deemed an appropriate refusal
Ref-Assessed, Treated, Ref Transport	Select this outcome when you assess a patient, determine the patient's condition and/or injuries to be minor in nature, treat them and the patient refuses transport to the hospital. This would be deemed an appropriate refusal
Standby - Fire Call - No Patient	Select this outcome when the medic unit is dispatched on a fire call and no patient is encountered
Standby - Law Enforcement Requested	Select this outcome when you are dispatched for a law enforcement standby and no patient is encountered
Standby - Scheduled - Ambulance	Select this outcome when a medic unit is dispatched to standby at a scheduled even
Standby - Scheduled - Bike Team	Select this outcome when a bike team is dispatched to standby at a scheduled even
Standby - Scheduled - Event Team	Select this outcome when a 2 person team is dispatched to standby at a scheduled event where you have no vehicle required to be at the standby
Standby - Scheduled - Individual	Select this outcome when 1 person on a Medic Unit is dispatched to standby at a scheduled event
Standby - Scheduled - Suppression	Select this outcome when a suppression unit is dispatched to standby at a scheduled even
Tiered - LFR Amb ALS Care	Select this outcome when a medic unit responds with another agency and the patient is transported in the LFR medic unit with ALS care provided
Tiered - LFR Amb BLS Care	Select this outcome when a medic unit responds with another agency and the patient is transported in the LFR medic unit with BLS care provided
Tiered-Rural Amb-ALS by LFR	Select this outcome when a medic unit intercepts with another agency, transport is provided by the other agency and ALS care is provided by LFR personnel in the other agency's ambulance
Tiered-Rural Amb-BLS by LFR	Select this outcome when a medic unit intercepts with another agency, transport is provided by the other agency and BLS care is provided by LFR personnel in the other agency's ambulance
Tiered-Rural Amb-w/o LFR	Select this outcome when a medic unit responds with another agency, assessment of the patient is done by LFR personnel and the patient is transported in the other agency's ambulance with BLS care provided by the other agency
Tiered-Rural Amb-w/o LFR AMA	Select this outcome when a medic unit intercepts with another agency and assessment by LFR personnel is refused by the patient or other agency when it is deemed to be necessary based on dispatch information and/or physical appearance of the patient, and the patient is transported by the other agency
