Noise Variance Application Instructions

This application is in accordance with Lincoln Municipal Code (LMC) Chapter 8.24 – Noise Control Ordinance. Section 8.24.150 grants the LLCHD authority to grant an initial variance from the Section 8.24.090 of the Noise Control Ordinance for a period not to exceed 15 days. Any person seeking an extension of the variance shall file an application with the LLCHD. The decision to grant or deny an application for a noise variance shall be based on the factors contained within Section 8.24.150 paragraph (c). Please provide the following information.

INSTRUCTIONS TO APPLICANT

1. Noise variance applications will only be considered if the applicant has demonstrated bringing the source of sound or activity for which the variance is sought into compliance with LMC 8.24 – Noise Control Ordinance constitutes an unreasonable hardship on the applicant, community, or other persons. The applicant must provide sufficient documentation demonstrating unreasonable hardship with each noise variance application.
2. All noise variance applications must be filled out on the form provided. All applications must be accompanied by a variance fee. The variance fee is stated on the application form, and is established in Lincoln Municipal Code (LMC) Chapter 8.24.150(a).
3. The applicant must submit the completed application to the LLCHD. The Health Director will forward the application to the appropriate law enforcement authority if applicable.
4. Variances and variance extensions shall not become effective until all conditions are agreed to by the applicant.
5. The Health Director will make the final determination to approve or deny issuance of a noise variance. If the variance is denied, the LLCHD will notify the applicant of the reason(s) for variance denial. If the variance is approved, the LLCHD will return the approved variance with specific requirements to the applicant. The approved variance must be made available to law enforcement and the LLCHD at their request for the duration of the approved variance.

GENERAL INFORMATION

If a noise variance permit is issued, it will contain conditions under which the noise emitting activity shall be conducted. Specific conditions may include, but are not limited to, the following:

1. All reasonable efforts will be made to keep unnecessary noise to a minimum during the period of time stated by the applicant.
2. Amplification levels of all loudspeakers and amplification devices will be kept at a reasonable level.
3. All motorized and stationary power units shall have an adequate muffler on engines to reduce noise as much as possible.
4. Noncompliance with any conditions of the approved variance shall terminate such variance and subject the applicant to those provisions of the noise ordinance regulating the source of sound or activity for which the variance was granted.
