V	Vision	04
	What is this project all about?	04
	What do we hope to achieve?	05
	How will riders use this service?	06
	Where will it serve?	07
01	Introduction	10
	Project overview	08
	A call to act	08
	Project goals and outcomes	09
	Transit ridership increases	09
	The rise of autonomous vehicles	09
02	Context	02
	Downtown overview	10
	Downtown landmarks and activity nodes	12
03	Concept	14
	Vehicles	14
	How will riders use the service?	16
	Smartphone app	17
	Route	18
	Static signage	21
	Stops	22
	Infrastructure components	24
04	User Scenarios	04
	Initiation of service	27
	Statehouse user requests ride to Haymarket district	28
	Vehicle takes a shortcut	29
	Vehicle is full	30
	Vehicle serves multiple passengers at once	31
	Vehicle is involved in a traffic incident	32
	Route is blocked	32

05	Policy and Legislative Environment	34
	Overview	34
	Modifications to Nebraska state law	34
	Meeting Federal Motor Vehicle Standards	37
06	Schedule and Cost	38
	Schedule	38
	Business models	39
	Cost	40
07	System Functional Requirements	42
	System functional requirements	42
08	Outcomes, Other Considerations, Next Steps	46
	Outcomes	46
	Other considerations	47
	Next steps	47
A	Appendix	48
	Microtransit deployments	48
	Vehicle options	50
	Infrastructure and operational considerations	52
	Business models	56
	Technology considerations	58

Disclaimer: This document is not intended to dictate design or operations of an autonomous vehicle provider, supplier or vendor. HDR does not certify or warranty the pilot study design or operations. HDR is providing a planning level document that contains possible operational scenarios for decision makers to formulate final design and operational plans. All vendors, suppliers and/or operators shall review and determine the appropriate requirements of the pilot vehicles and systems to meet the operational requirements for the safe and proper operations of the vehicle.
