# Table of Contents - DRAFT

Section 1 – Introduction

1.1 Background

1.2 Solid Waste Types Managed

1.3 Needs Assessment Contents

Section 2 – Planning Area

2.1 Population

2.2 Employment Data

2.3 Urban Growth Patterns

Section 3 – Current Waste Management Practices

3.1 Solid Waste and Recyclables Collection Practices

3.1.1 Recyclables and Lawn Waste Collection

3.2 Waste Handling and Management Facilities

3.2.1 Recycling Processing Centers

3.2.2 Transfer Stations

3.2.3 Household Hazardous Material Diversion

3.2.4 Waste Diversion Programs

3.2.5 HHW

3.3 Disposal Facilities

3.3.1 Bluff Road Landfill

3.3.2 North 48th Street C/D Landfill

3.3.3 Other Disposal Facilities

3.3.4 Competing Facilities

3.4 Regulatory/Permit Requirements

3.4.1 Transfer Stations and Processing Facilities

3.4.2 C&D Processing and Disposal

3.4.3 Waste-to-Energy

3.4.4 Handling Requirements for Special Wastes

3.5 Greenhouse Gas Emissions from the Solid Waste Management System

3.5.1 GHG from Solid Waste Collection System

3.5.2 Solid Waste Operations Energy Use Impacts

3.5.3 LFG Emission Impacts

3.5.4 Material Recovery Diversion Credits
Section 4 – Generation and Composition

4.1 Historical Waste Generation
4.2 Reporting and Data Collection Methods
4.3 Analysis Methodology
4.4 Generation Rates
4.5 Seasonal Fluctuations
4.6 Waste Composition

Section 5 – Future Management and Disposal Needs

5.1 Future Quantity Forecasts
5.2 Waste Disposal Capacity
5.3 Facilities Needs
5.4 Management Programs
5.5 Regulatory/Permit Requirements
5.6 Regional Programs and Facilities
5.7 Summary of Solid Waste Management Needs
5.8 Forecast Variables
5.9 Waste Tracking Needs

List of Tables

Table 2-1 – 2010 U.S. Census Data
Table 2-2 – LPlan 2040 Plan Population Projections
Table 2-3 – 2010 Lancaster County Employment Data
Table 3-1 – 10-Year Summary of Material Tonnages at Public Drop-off Sites
Table 3-2 – Recycling Tons Reported by Private-Sector
Table 3-3 – Recycled Tons of Concrete and Asphalt Reported by Private-Sector
Table 3-4 – Pounds of HHW Collected Per Year
Table 3-5 – Historical Quantities Disposed from Planning Area (Tons)
Table 3-6 – Regional Landfills (2012$)
Table 3-7 – GHG Emission Factors
Table 3-8 – Estimated Annual Refuse Collection Related GHG Emissions (MTCO$_2$e)
Table 3-9 – Average Annual GHG Emissions from Solid Waste Operations
Table 3-10 – Estimated Annual GHG Emissions from City Landfills in 2012
Table 4-1 – Historical Solid Waste Generation Tonnage in Lancaster County
Table 4-2 – 2008 Nebraska Waste Characterization Study (Bluff Road Landfill)
Table 5-1 – Waste Generation Projections

Table 5-2 – Comparison of Projected MSW Generated for Disposal, Tons

List of Figures

Figure 2-1 – Lincoln-Lancaster Urban Growth Projections

Figure 5-1 – 2010 Waste Disposal and Diversion, by Percentage

Figure 5-2 – Waste Generation and Management Baseline

List of Appendices

Appendix A 2008 Nebraska Waste Characterization Study

Appendix B Waste Generation Projections
