

WHAT'S IN YOUR HOUSE?

Lawn & garden chemicals in the backyard shed or basement?

Automotive products in the garage?

Cleaning chemicals in the kitchen and bathroom?

Home improvement products in the storage closet?

Many everyday chemicals can be dangerous if misused. If you have old, unused chemicals or are cleaning out the house and wondering what to do with all that “stuff”, the Lincoln-Lancaster County Health Department encourages you to safely use, store and dispose of these items.

The **Hazard-Free Home Handbook** is a great resource for using up, recycling, and/or disposing of excess household products, and suggests less-hazardous alternatives.

Check it out online at

www.lincoln.ne.gov

keyword: household

More information on safe use, disposal and storage of household hazardous waste:

402-441-8021

www.lincoln.ne.gov (keyword: household)

Are you a small business? The collection events listed in this brochure are for Lincoln **households only**. Special collection programs are available for businesses generating small amounts of hazardous waste. Typical qualifying businesses include painters, print shops, auto shops, builders, local government agencies and small medical offices. For additional information contact the Lincoln-Lancaster County Health Department.

SAFE HOMES FOR SENIORS
