

Memo

To: Capitol Environs Commission

From: Lynn Johnson, Director

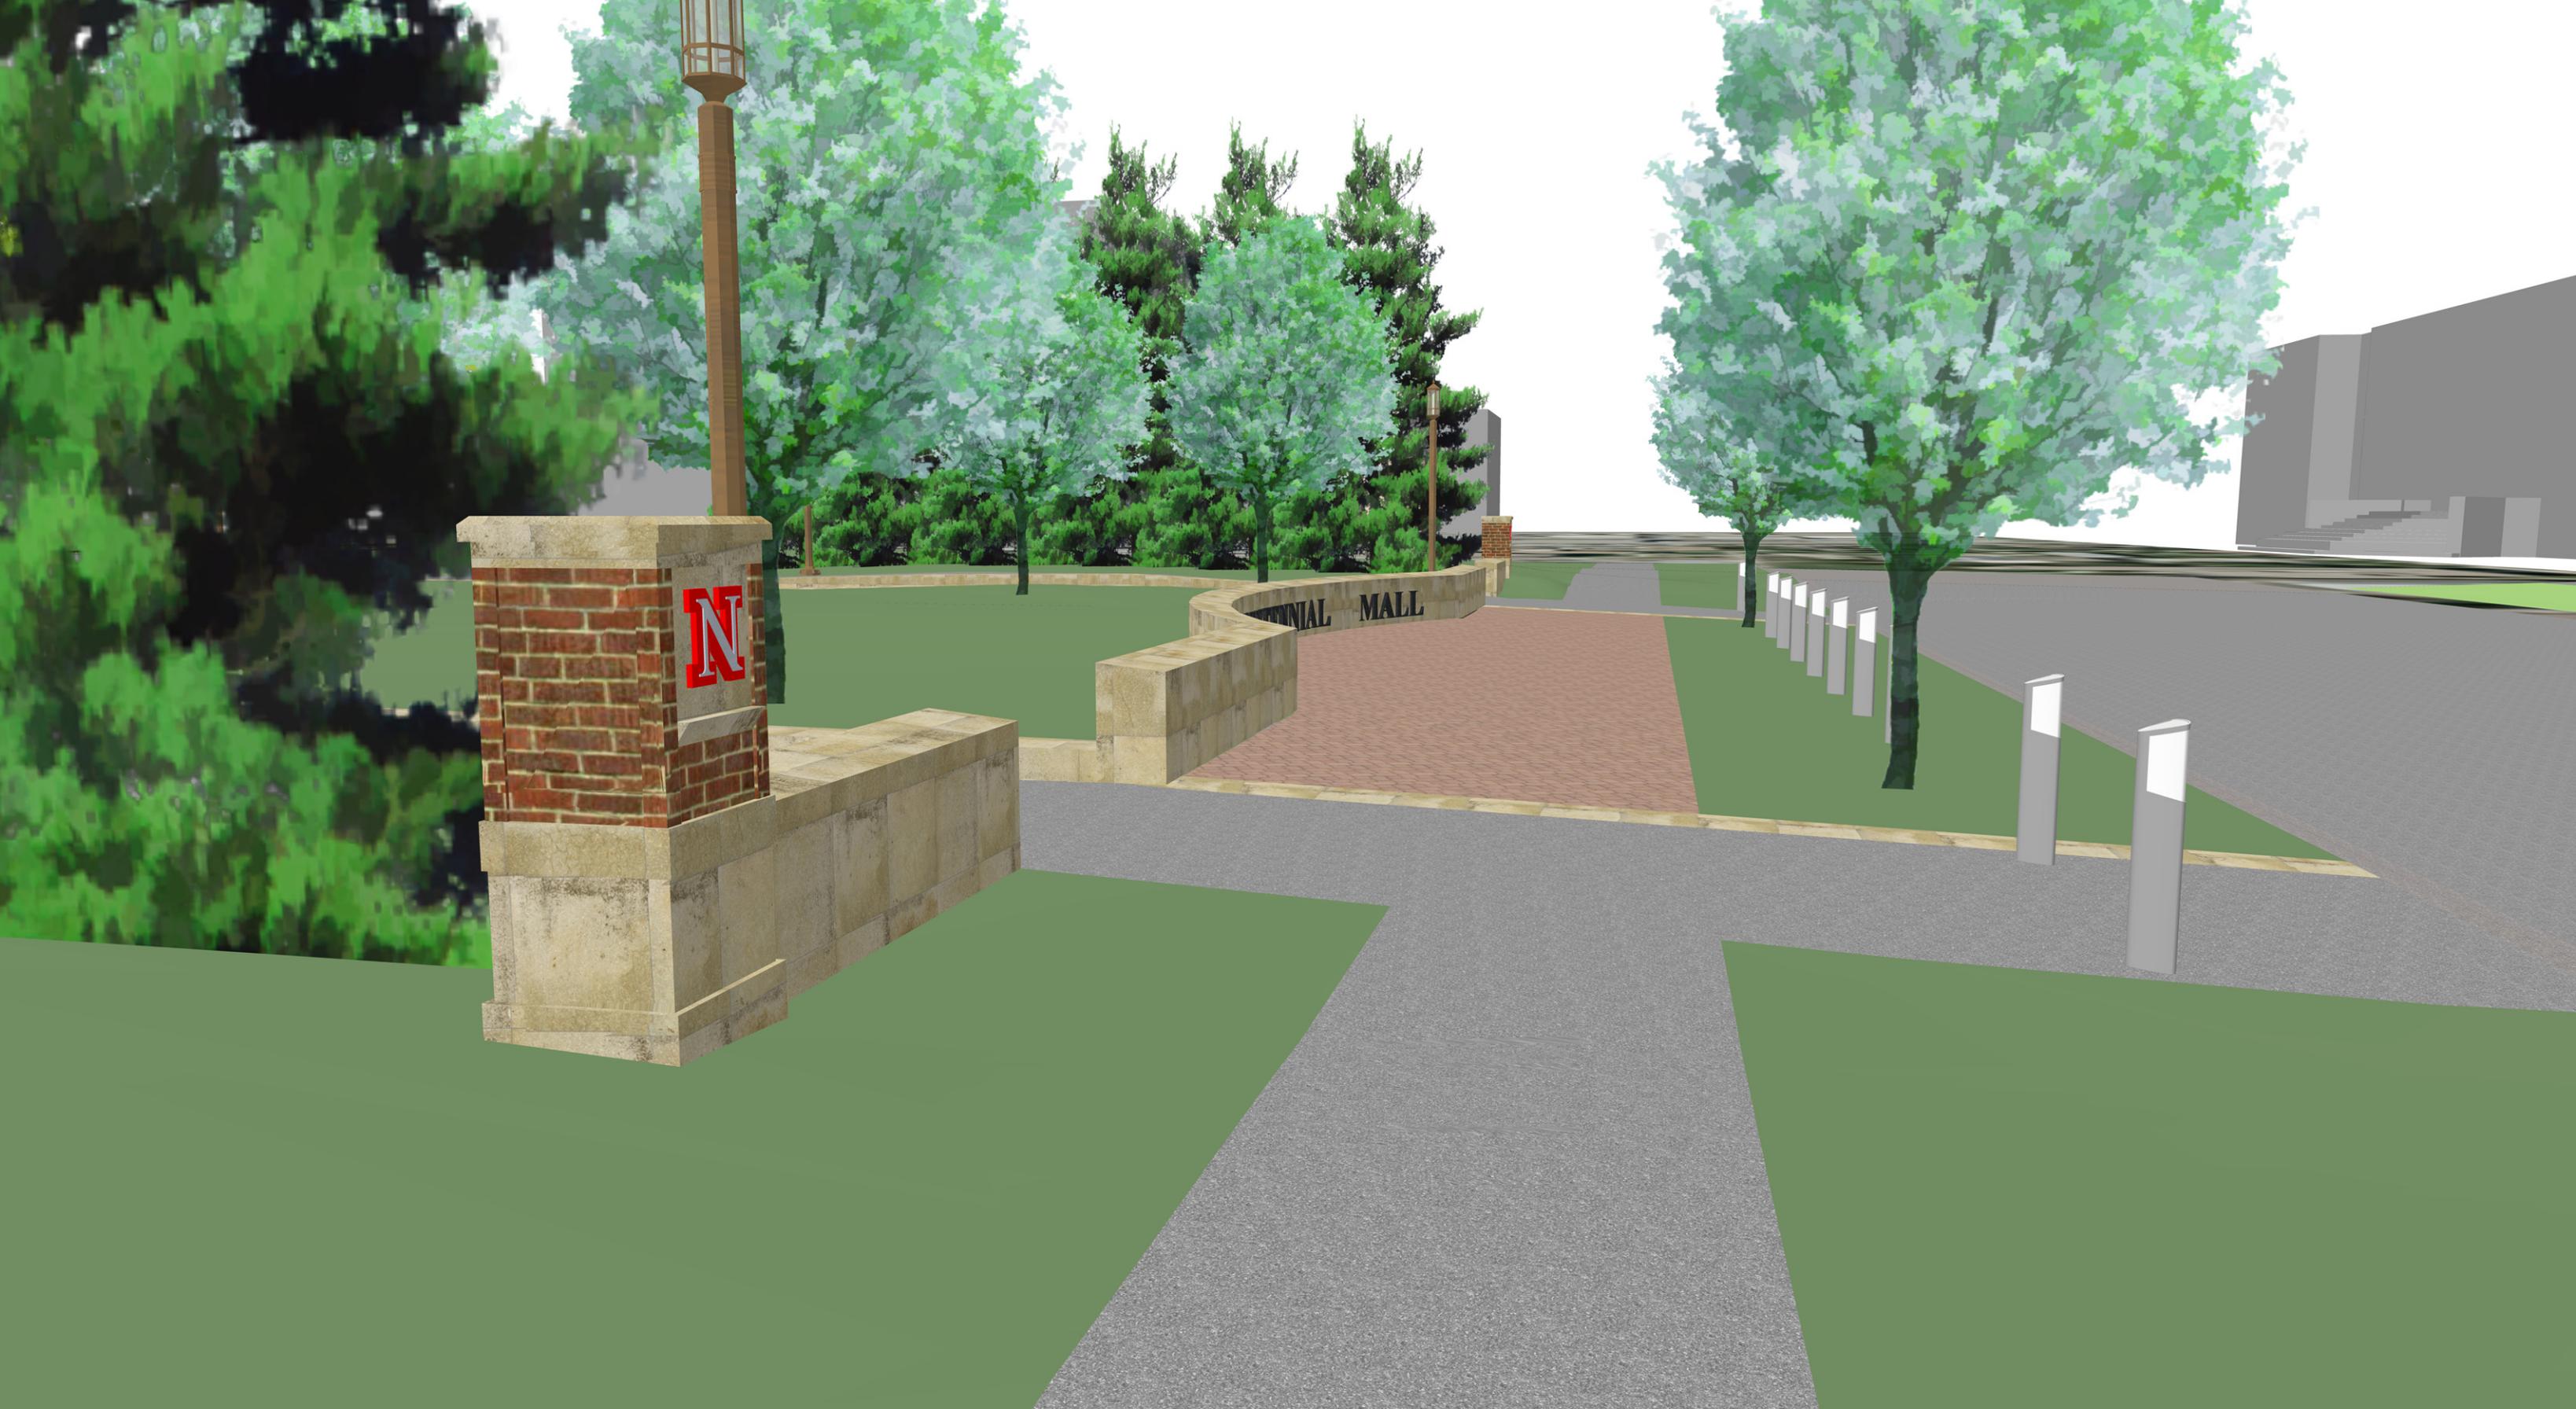

Date: October 15, 2015

RE: Columns at North End of Centennial Mall

Attached are two versions of additional columns at the north end of Centennial Mall along 'R' Street recognizing University of Nebraska-Lincoln for your consideration. The first is the original design, with the UNL "N" in a cast bronze metallic material. The second design has a powder-coated red "N" that matches the UNL standard design. Considerable discussion has occurred between the City of Lincoln and UNL to integrate the University elements and 'R' Street streetscape with Centennial Mall, and we are down to this last fine point.

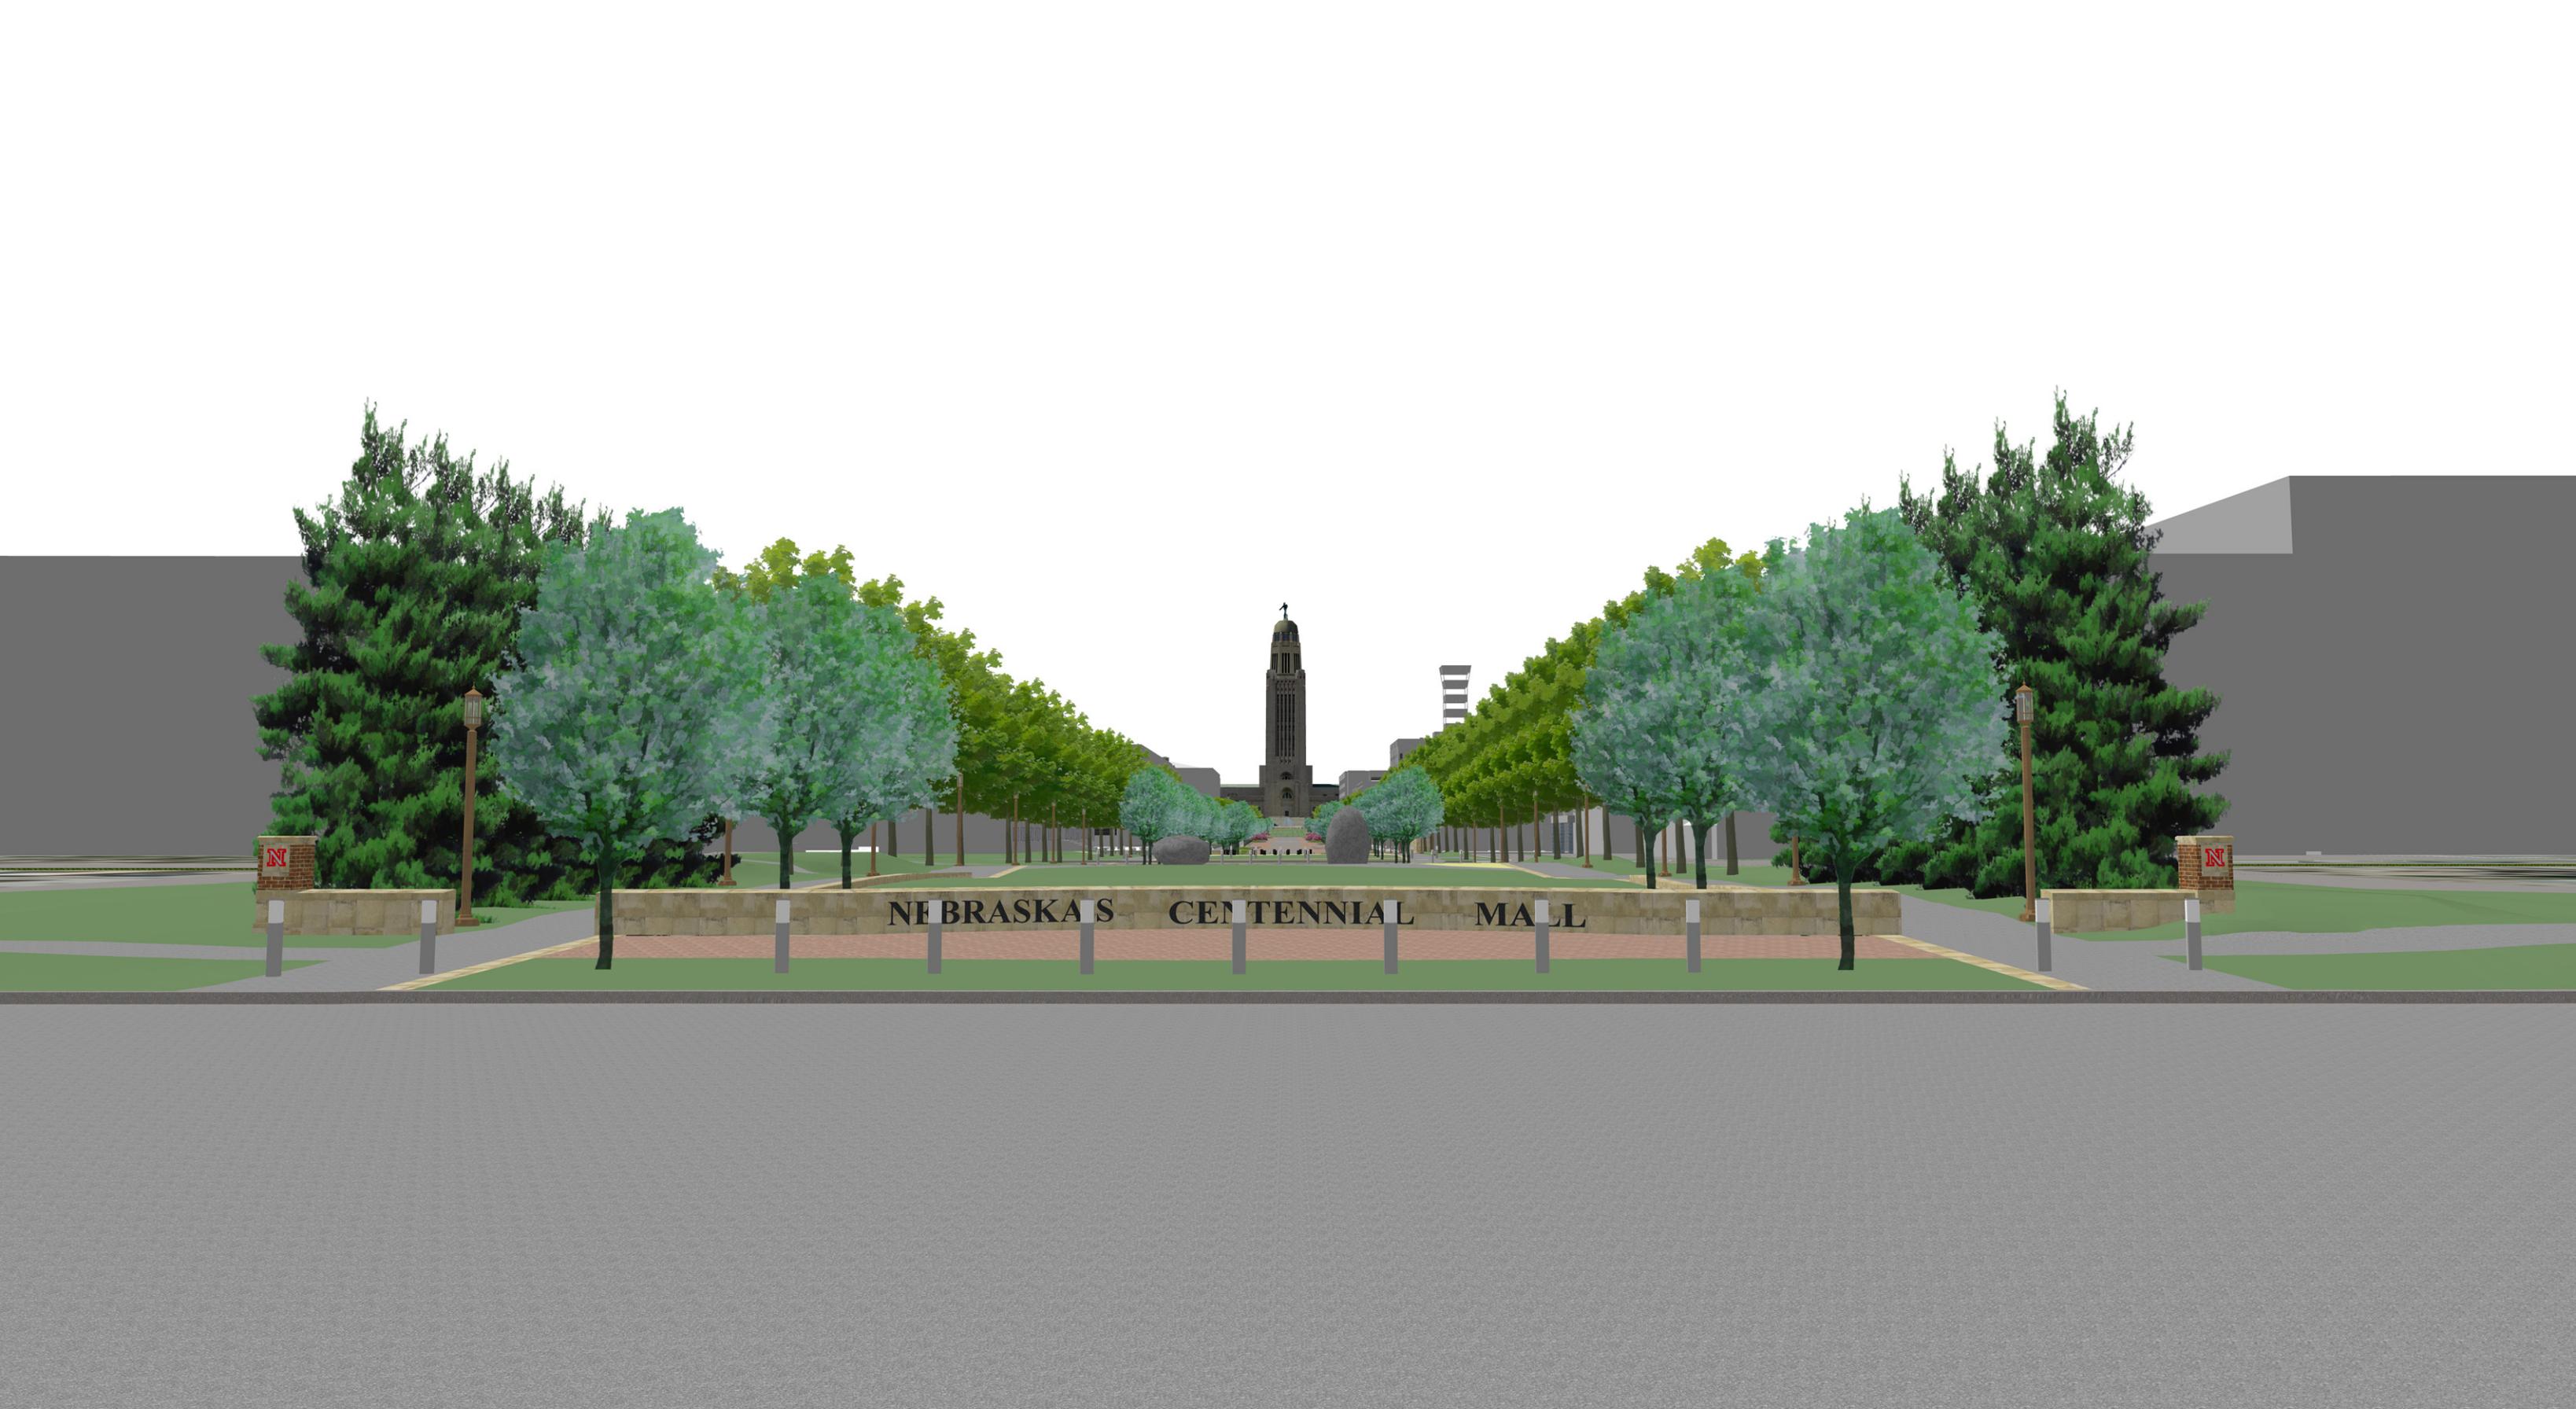

The City of Lincoln prefers the original design, but if the Commission prefers the second design and endorses it from an aesthetic point of view, the alternate design would also be acceptable to the City.
