December 18, 2015

Dear Friends who are Lincoln City Council Members,

Thank you for your service to our community.

As we all realize, Lincoln is being recognized as a visionary city. Our City has become a believer in long-range planning and The South Haymarket Neighborhood Plan is another good example of people looking forward.

We want to take this opportunity to compliment the present Lincoln-Lancaster County Planning Department staff, led by David Cary, for its commitment to improving the South Haymarket and for working with existing businesses to ensure a mutually beneficial development moving forward. In addition to David, we want to recognize the efforts, communication, and support of Paul Barnes, Dr. Edward Zimmer, and Stacy Hageman in ensuring that we understand the hopes, dreams, and goals for this plan.

Obviously, there is more work to do. We look forward to seeing the plan's evolution, the continued level of communication, and a successful development to compliment the Historic Haymarket and West Haymarket districts.

Very sincerely,

Eric Schafer
President
