# ANTELOPE CREEK TRIBUTARY CREEK STABILIZATION PROJECT FINAL DESIGN REVIEW

## **PROJECT SITE VISIT**

*Hosted by the City of Lincoln  
and The Flatwater Group Inc.*

**TUESDAY, JULY 19**

**6:30 – 8:00 PM**

This project is a creek stabilization design project for the tributary to Antelope Creek running through Antelope Park from approximately Van Dorn Street downstream to Garfield Street, Lincoln, Nebraska. The project will include analysis of the existing stream conditions, review of the associated hydrology and hydraulics, and development of engineering design for stabilization measures.

The Project Site Visit will include a brief presentation covering the following:

- Project Background
- Final Design

A question and answer period will be held following the presentation.
