Old Cheney Rd, Warlick St. to 40th St. Pavement Repair City Projects #540032

The City of Lincoln will begin construction the week of September 8, 2015 on a concrete pavement repair project along Old Cheney Rd. between Warlick St. and 40th St., weather permitting. Construction will include repairing or removing and replacing deteriorated concrete panels, joints and curbs; and sealing joints and cracks. Other work includes removing and replacing damaged storm sewer inlet tops, curb ramps that do not meet Federal and local standards, and reconstruction of traffic signal elements impacted by the work.

Pavement repair along Old Cheney Rd. from 27th St. to 40th St. is scheduled to begin Tuesday, September 8, and completed by November of 2015, weather permitting. The Contractor plans to begin working work in this area on the interior lanes first and then switch over to the outside lanes. All remaining work along the Old Cheney Rd. corridor will be completed by mid-July of 2016, minus seeding and final close out items to be completed by October of 2016. All lanes will be open during the winter months

The work will be completed under lane closures. A minimum of one lane will be open to eastbound and westbound traffic at all times. Access to adjacent properties will be maintained and any access restrictions will be coordinated with the property owner. Properties with multiple entrances will have one entrance open at all times, unless otherwise agreed to by the property owner. Access for emergency vehicles will be maintained at all times. Pedestrian access to businesses, residences, and trails will be maintained throughout the duration of the project via alternate pedestrian routes and or detours provided during the reconstruction of curb ramps.
