

LAWN SEEDING

REIMBURSABLE EXPENSES

EXAMPLE:

SIZE
1391 ft²

COST
\$2,100

AGE IN YEARS
1

REIMBURSABLE: ANYTHING THAT ENHANCES WATER QUALITY FEATURES

- Native or deep rooting turf grass seed or plugs
- Sedge plugs (as a turfgrass alternative)
- Hydro-seeding
- Soil grading to redirect rain water to water quality features
- Soil amendments (compost, manure, etc.)
- Equipment rentals (rototiller, sod cutter, aerator, etc.)
- Design and installation labor performed by a professional
- Attendance of stormwater workshop or educational classes
- Project size > 300 ft² or approval

INELIGIBLE: ANYTHING THAT IS SUPERFLUOUS

- Tools purchased (tape measure, shovel, rake, seed spreader, etc.)
- Sod
- Bluegrass and or other non-deep rooting grasses
- Annuals
- Labor done by homeowner and or non-professional
- Additional landscaping or dirtwork that does not pertain to water quality projects
