

BEAL SLOUGH STORMWATER MASTER PLAN

Prepared for the City of Lincoln, Nebraska and The Lower Platte South Natural Resources District
by
Olsson Associates and Wright Water Engineers
May 2000

Beal Slough Basin Stormwater Master Plan

Prepared for The City of Lincoln, Nebraska and The Lower Platte South Natural Resources District
by
Olsson Associates and Wright Water Engineers
May 2000

Table of Contents

Section Number	Title
	EXECUTIVE SUMMARY
SECTION I	BASIN EVALUATION
	PLANNING AREA DESCRIPTION
	HYDROLOGY
	HYDRAULICS
	WATER QUALITY
	STREAM SEGMENT EVALUATION
	EVALUATION SUMMARY
SECTION II	MASTER PLAN
	PLAN FORMULATION
	ISSUES ADDRESSED
	PROPOSED MASTER PLAN
BIBLIOGRAPHY	
APPENDIX A	MASTER PLAN CONDITIONS RUNOFF SUMMARY for 2-year, 10-year, and 100-year Frequency Events
APPENDIX B	Figures VI-1 through VI-11 from the Interim Basin Report
APPENDIX C	Comparison of Lincoln Stormwater Quality Data with National Urban & Denver Metropolitan Data
APPENDIX D	Biological Assessment of Beal Slough
APPENDIX E	Minor Storm Drain System Analysis
Table Number	Title
	EXECUTIVE SUMMARY
ES-1	Subarea Target Peak Flow Rates for 2-, 10-, and 100-year Storms
ES-2a	Target Peak Flow Rates at Selected Locations on the Mainstem
ES-2b	Target Peak Flow Rates at Selected Locations on the Mainstem
ES-3	Preliminary Opinion of Approximate Cost for Major Capital Components
SECTION I	BASIN EVALUATION
I-1	Hydrologic Parameters of the Basin
I-2	Summary of 1997 Land Use in the Beal Slough Watershed
I-3	Development in the Watershed
I-4	Comparison of Soil Associations Found in the Watershed

Table Number continued	Title
I-5	Soil Legend and Hydrologic Soil Group
I-6	Pond Characteristics
I-7	Beal Slough Historic Storm Distribution
I-8	Beal Slough 24-hour Type II Storm Distribution
I-9	Drainage Subbasin Characteristics
I-10	100-year Peak Flow Rate Comparison of 1997 to FIS Values
I-11	Annual Pollutant Loads Estimated from 1992 Monitoring Results
I-12	Inventory of Industrial Facilities
I-13	Monitoring Site Description
I-14	Results of Chemical Analysis
I-15	Comparison of Beal Slough Sampled Data to NURP Data
I-16a	Comparison of Bridge Capacity Mainstem Channel
I-16b	Comparison of Bridge Capacity Tributary Channels
I-17a	Comparison of Stream Reach Capacity Mainstem Channel
I-17b	Comparison of Stream Reach Capacity Tributary Channels
I-18	Visual HEC-1 Reach and HEC-RAS Cross-section Labeling Key
SECTION II	MASTER PLAN
MP-1	Target Peak Flow Rates at Selected Locations on the Mainstem
MP-2	Target Peak Flow Rates at Selected Locations on the Tributaries
MP-3	Subarea Target Peak Flow Rates for 2-, 10-, and 100-year Storms
MP-4	2-year Peak Flow Rate Comparison of 1997 Conditions to Master Plan Conditions
MP-5	Preliminary Opinion of Approximate Cost for Major Capital Components

Figure Number	Title
	EXECUTIVE SUMMARY
ES-1	Pattern of Development Map
ES-2	Basin Map
ES-3	Growth in Peak Flow Rates
ES-4	Master Plan Major Capital Cost Components
ES-5	Master Plan Improvement in Peak Flow Rates

Figure Number continued		Title	Figure Number continued	Title
SECTION I		BASIN EVALUATION	SECTION II	MASTER PLAN (continued)
I-1	Locator Map	SG6-PC	Stream Segment 6 Components - Old Cheney Road to Pine Lake Road	
I-2	Basin Map	SG6-FP	Stream Segment 6 Plan and Profile - Old Cheney Road to Pine Lake Road	
I-3	Land Use	SG7-PC	Stream Segment 7 Components - Pine Lake Road to 70 th Street	
I-4	Future Land Use	SG7-FP	Stream Segment 7 Plan and Profile - Pine Lake Road to 70 th Street	
I-5	Existing Soil Types	SG7-CD1	Stream Segment 7 - Training Dike Concept	
I-6	SCS Hydrologic Soil Groups	SG8-PC	Stream Segment 8 Components - 70 th Street to 84 th Street	
I-7	Visual HEC-1 Schematic of Beal Slough Master Plan Model	SG8-FP	Stream Segment 8 Plan and Profile - 70 th Street to 84 th Street	
I-8	1997 Land Use Map	SG9-PC	Stream Segment 16 Components -70 th Street Tributary	
I-9	Future Hydrologic Conditions	SG9-FP	Stream Segment 16 Plan and Profile - 70 th Street Tributary	
I-10	NPDES Stormwater Monitoring Site Location Map	SG10-PC	Stream Segment 15 Components - Pine Lake Tributary	
I-11	Photographic Key Map	SG10-FP	Stream Segment 15 Plan and Profile - Pine Lake Tributary	
I-12	Channel Cross-section Comparison Between FIS 1978 and 1998 Channel	SG11-PC	Stream Segment 14 Components - Highway 2 to 56 th Street Tributary	
		SG11-FP	Stream Segment 14 Plan and Profile - Highway 2 to 56 th Street Tributary	
		SG12-PC	Stream Segment 13 Components - Highway 2 to 56 th Street Tributary	
		SG12-FP	Stream Segment 13 Plan and Profile - Highway 2 to 56 th Street Tributary	
		SG13-PC	Stream Segment 9 Components - Tierra Branch, Beal Slough to 34 th Street Tributary	
		SG13-FP	Stream Segment 9 Plan and Profile - Tierra Branch, Beal Slough to 34 th Street Tributary	
SECTION II	MASTER PLAN	SG14-PC	Stream Segment 11 Components - Tierra Branch, 34 th Street to Pine Lake Road Tributary	
MP-1	Master Plan - Major Capital Cost Components	SG14-FP	Stream Segment 11 Plan and Profile - Tierra Branch, 34 th Street to Pine Lake Road Tributary	
MP-2	Master Plan Improvements in Peak Flow Rates	SG15-PC	Stream Segment 10 Components - Tierra Branch, Tributary	
MP-3	Stream Segment Figure Key Map	SG15-FP	Stream Segment 10 Plan and Profile - Tierra Branch, Tributary	
SG1-PC	Stream Segment 1 Components - Salt Creek to 14 th Street	SG16-PC	Stream Segment 12 Components - King Arthur Court Tributary	
SG1-FP	Stream Segment 1 Plan and Profile - Salt Creek to 14 th Street	SG16-FP	Stream Segment 12 Plan and Profile - King Arthur Court Tributary	
SG1-CD1	Stream Segment 1 & 2 - Tieback Levee Concepts			
SG2-PC	Stream Segment 2 Components - 14 th Street to 27 th Street			
SG2-FP	Stream Segment 2 Plan and Profile - 14 th Street to 27 th Street			
SG2-CD1	Stream Segment 2 - Channel Concepts			
SG2-CD2	Stream Segment 2 - Water Quality Wetlands Concept			
SG3-PC	Stream Segment 3 Components - 27 th Street to (3800E) Highway 2			
SG3-FP	Stream Segment 3 Plan and Profile - 27 th Street to (3800E) Highway 2			
SG3-CD1	Stream Segment 3 - Tierra Park Off-channel Storage Facility near Tierra Drive Concepts			
SG3-CD2	Stream Segment 3 - Concept Off-Channel Storage Facility near 38 th Street			
SG3-CD3	Stream Segment 3 - Storage Concept Sections			
SG3-CD4	Stream Segment 3 - Channel Stability Concept			
SG4-PC	Stream Segment 4 Components - (3800E) Highway 2 to (5200E) Highway 2			
SG4-FP	Stream Segment 4 Plan and Profile - (3800E) Highway 2 to (5200E) Highway 2			
SG4-CD1	Stream Segment 4 - Concepts			
SG5-PC	Stream Segment 5 Components - (5200E) Highway 2 to Old Cheney Road			
SG5-FP	Stream Segment 5 Plan and Profile - (5200E) Highway 2 to Old Cheney Road
